

Attestation Form is for the use of a State or local government AG or IG to attest on behalf of a State or local government department or agency Person or Certified Person. The AG or IG Systems Safeguards Attestation Form requires the State or local government AG or IG to attest that a Person seeking certification or a Certified Person seeking renewal of certification has information security systems, facilities and procedures in place to protect the security of the Limited Access DMF, as required under section 1110.102(a)(2) of the final rule. The AG or IG Systems Safeguards Attestation Form collects information based on an assessment by the State or local government AG or IG conducted within three years prior to the date of the Person or Certified Person's submission of a completed certification statement under section 1110.101(a) of the final rule. This collection includes specific requirements of the final rule, which the State or local government AG or IG must certify are satisfied, and the provision of specific information by the State or local government AG or IG, such as the date of the assessment.

Affected Public: Accredited Conformity Assessment Bodies and State or local government Auditors General or Inspectors General attesting that a Person seeking certification or a Certified Person seeking renewal of certification under the final rule for the "Certification Program for Access to the Death Master File" has information security systems, facilities and procedures in place to protect the security of the Limited Access DMF, as required by the final rule.

Frequency: Every three (3) years.

Respondent's Obligation: Voluntary.

Legal Authority: Section 203 of the Bipartisan Budget Act of 2013, Public Law 113-67.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 to examine an application for patent and, when appropriate, issue a patent. The USPTO is also required to publish patent applications, with certain exceptions, promptly after the expiration of a period of eighteen months from the earliest filing date for which a benefit is sought under title 35, United States Code ("eighteen-month publication"). Certain situations may arise which require that additional information be supplied in order for the USPTO to further process the patent or application. The USPTO administers the statutes through various sections of the rules of practice in 37 CFR part 1.

During the processing of an application for a patent, the applicant or the applicant's representative may be required to submit additional information to the USPTO concerning the examination of a specific application. The specific information required to be submitted includes: requests for extension of time, abandonment of applications and the revival of abandoned applications, disclaimers, appeals, petitions, expedited examination of design applications, requests for continued examinations, requests to inspect, copy, access patent applications, and transmittal forms.

The information in this collection is used by the USPTO to continue the processing of the patent or application to ensure that applicants are complying with the patent regulations and to aid in the prosecution of the application. This also includes situations that require additional information in order for the USPTO to further process the patent or application.

II. Method of Collection

The items in this information collection can be submitted through the USPTO patent electronic filing system (Patent Center), the USPTO's online filing and viewing system for patent applications and related documents. The USPTO also will accept submissions by mail, hand delivery, and facsimile.

- Type of Review:* Extension and revision of a currently approved information collection.
- Affected Public:* Private sector.
- Respondent’s Obligation:* Required to obtain or retain benefits.
- Estimated Number of Annual Respondents:* 2,435,597 respondents per year.
- Estimated Number of Annual Responses:* 2,435,597 responses per year.
- Estimated Time per Response:* The USPTO estimates that it will take respondents between 2 minutes (0.03 hours) and 8 hours to submit items in this information collection depending on the instrument used. This includes the time to gather the necessary information, create the document, and submit the completed request to the USPTO.
- Estimated Total Annual Respondent Burden Hours:* 535,466 hours.
- Estimated Total Annual Respondent Hourly Cost Burden:* \$170,503,027.

Estimated Total Annual Non-Hourly Cost Burden: \$363,821,958. There is no capital start-up, maintenance costs, or recordkeeping costs associated with this information collection. However, there is non-hour cost burden in the way of filing fees and postage costs. The total

annual (non-hour) respondent cost burden for this collection is estimated to be \$363,821,958, which includes \$363,579,616 in filing fees, and \$242,342 in postage.

Filing Fees

The fees in this information collection are listed in the table below. The fee for Request for Prioritized Examination has no counterpart in the hourly cost table due to that form being exempt from the PRA.

Postage Costs

Although the USPTO prefers that the items in this information collection be submitted electronically, responses may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that 1% of the 2,435,597 items will be submitted in the mail resulting in 24,356 mailed items. The USPTO estimates that the average postage cost for a mailed submission,

using a Priority Mail flat rate legal envelope, will be \$9.95. Therefore, the USPTO estimates that the total mailing costs for this information collection is \$242,342.

IV. Request for Comments

The USPTO is soliciting public comments to:
 (a) Evaluate whether the collection of information is necessary for the proper performance of the functions of the

Agency, including whether the information will have practical utility;
 (b) Evaluate the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
 (c) Enhance the quality, utility, and clarity of the information to be collected; and
 (d) Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personally identifiable information (PII) in a comment, be aware that the entire comment—including PII—may be made publicly available at any time. While you may ask in your comment to withhold PII from public view, USPTO cannot guarantee that it will be able to do so.

Supplemental Guidance for Examination of Design Patent Applications Related to Computer-Generated Electronic Images, Including Computer-Generated Icons and Graphical User Interfaces

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Examination guidance; correction.

SUMMARY: The United States Patent and Trademark Office (USPTO) published in the **Federal Register** on November 17, 2023, supplemental guidance to be used by USPTO personnel in determining whether a design claim including a computer-generated electronic image is directed to statutory subject matter. This notice provides the deadline for written comments. Additionally, the USPTO has corrected Examples 2, 4, and 5 in Section (V) of the supplemental guidance published in the **Federal Register** to reflect certain formatting (i.e., underlining and strikethrough) necessary to understand the examples. The supplemental guidance, including the examples, will be incorporated into the Manual of Patent Examining Procedure in due course.

FOR FURTHER INFORMATION CONTACT: Erin Harriman, Senior Legal Advisor, Office

of Patent Legal Administration, at 571-272-7747; or Carolyn Kosowski, Senior Legal Advisor, Office of Patent Legal Administration, at 571-272-7688.

SUPPLEMENTARY INFORMATION: The USPTO published in the **Federal Register** on November 17, 2023, supplemental guidance to be used by USPTO personnel in determining whether a design claim including a computer-generated electronic image is directed to statutory subject matter. See *Supplemental Guidance for Examination of Design Patent Applications Related to Computer-Generated Electronic Images, Including Computer-Generated Icons and Graphical User Interfaces*, 88 FR 80277. This notice provides the deadline for submitting written comments through the Federal eRulemaking Portal at www.regulations.gov. The deadline for submitting comments is November 18, 2024. Please see the **ADDRESSES** section in the November 17, 2023 notice for instructions on how to submit comments.

Correction

In the **Federal Register** of November 17, 2023, in FR Doc. 2023-25473, on page 80277, in the third column, correct the **DATES** caption to read:

DATES: This supplemental guidance is applicable as of November 17, 2023. Comments must be received by November 18, 2024, to ensure consideration.

In addition, the USPTO has corrected Examples 2, 4, and 5 in Section (V) of the supplemental guidance published in the **Federal Register** to reproduce certain formatting (i.e., underlining and strikethrough) in the text necessary to understand the examples. A PDF version of the examples, which contains the formatting, has been posted on the Examination Guidance and Training Materials page under 35 U.S.C. 171 at www.uspto.gov/patents/laws/examination-policy/examination-guidance-and-training-materials.

The supplemental guidance, including the examples, will be incorporated into the Manual of Patent Examining Procedure in due course.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Patent Examiner Employment Application

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 15, 2023 during a 60-day comment period (88 FR 78332). This notice allows for an additional 30 days for public comment.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Patent Examiner Employment Application.

OMB Control Number: 0651-0042.

Needs and Uses: In the current employment environment, life science and engineering graduates are in great demand. The United States Patent and Trademark Office (USPTO) is in direct competition with the private industry for the same caliber of candidates with the requisite knowledge and skills to perform patent examination work. This information collection covers online applications to the USPTO for entry level patent examiner positions. More specifically, the collection covers the respondent data gathered from the applications. The USPTO posts the relevant positions online and collects applicant information via the USA Staffing System.

The USA Staffing online application collects supplemental information to a candidate's USAJOBS application. This information assists USPTO Human Resource Specialists and Hiring Managers in determining whether an applicant possesses the basic qualification requirements for a patent examiner position. From the information collected, the USA Staffing system creates an electronic real-time candidate inventory on applicants' expertise and technical knowledge, which allows USPTO to immediately review applications from multiple
