## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1185; FR ID 281745]

### Information Collection Requirement Being Reviewed by the Federal Communications Commission Under Delegated Authority

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before April 28, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

Include in the comments the Title as shown in the **SUPPLEMENTARY INFORMATION** section below.

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

#### SUPPLEMENTARY INFORMATION:

*OMB Control Number:* 3060–1185.

*Title:* Annual Report for Mobility Fund Phase I Support, FCC Form 690 and Record Retention Requirements.

*Form Number:* FCC Form 690.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

*Number of Respondents and Responses:* 34 respondents and 64 responses.

*Time per Response:* 1–18 hours.

*Frequency of Response:* Annual and on occasion reporting requirement; recordkeeping requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r) of the Communications Act of 1934, as amended.

*Estimated Total Annual Burden:* 574 hours.

*Total Annual Costs:* No Cost.

*Needs and Uses:* A request for extension of this information collection (no change in requirements) will be submitted to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three year clearance from OMB. In its November 2011 *USF/ICC Transformation Order* (FCC 11–161), the Commission comprehensively reformed and modernized the high-cost program within the universal service fund and, among other things, established the Mobility Fund. The Commission adopted rules in the *USF/ICC Transformation Order* for Mobility Fund Phase I (MF–I), which provided up to \$300 million in one-time universal service support payments to immediately accelerate deployment of mobile broadband services in unserved areas, including annual reporting and record retention requirements for MF–I support recipients. The Commission also established a separate and complementary one-time Tribal Mobility Fund Phase I (TMF–I) to award up to \$50 million in additional universal service funding to Tribal Areas, including Alaska, to accelerate mobile broadband availability in these remote and underserved areas. In its May 2012 *Third Order on Reconsideration* (FCC 12–52), the

Commission revised certain rules adopted in the *USF/ICC Transformation Order*, including the deadline by which MF–I and TMF–I support recipients must file their annual reports pursuant to 47 CFR 54.1009(a). Recipients of MF–I and TMF–I support are required to file annual reports with the Commission on FCC Form 690 demonstrating the coverage provided with support from the Mobility Fund for five (5) years after qualifying to receive support. Documentation prepared for, or in connection with, the award of MF–I and TMF–I support is to be retained by a recipient of such support for a period of not less than ten (10) years after the recipient receives its final disbursement of support. The Commission uses the information collected under this information collection to ensure that each MF–I and TMF–I support recipient is meeting the obligations associated with receiving such support.

The auctions to award MF–I and TMF–I support were held in 2012 and 2014, respectively. Due to the passage of time since support disbursements to MF–I and TMF–I began to be distributed following the conclusion of these auctions, there are no longer any TMF–I support recipients that are still required to file annual reports on FCC Form 690, and there are only a few MF–I support recipients that are still required to file annual reports.

Comments are requested concerning:

whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. **FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0221.

*Title:* Section 90.155, Time in Which Station Must Be Placed in Operation.  
*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit, and State, Local or Tribal Government.

*Number of Respondents and Responses:* 45 respondents; 397 responses.

*Estimated Time per Response:* 1 hour.

*Frequency of Response:* On occasion reporting requirement.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154(i), 161, 303(r), 303(g), 332(c)(7), unless otherwise noted.

*Total Annual Burden:* 397 hours.

*Annual Cost Burden:* No cost.

*Needs and Uses:* The information collection requirements contained in Section 90.155 provide that a period longer than 12 months may be granted

to local government entities to place their stations in operation on a case-by-case basis upon a showing of need. This rule provides flexibility to state and local governments. An application for extension of time to commence service may be made on FCC Form 601. Extensions of time must be filed prior to the expiration of the construction period. Extensions will be granted only if the licensee shows that the failure to commence service is due to causes beyond its control.

In 1995, via a Report and Order in PR Docket No. 93-61; FCC 95-41, published at 60 FR 15248, the Commission established construction deadlines for Location and Monitoring Service (LMS) licensees in the market-licensed multilateration LMS services. On July 8, 2004, the Commission adopted a Report and Order under WT Docket Nos. 02-381, 01-14, and 03-202; FCC 04-166, published at 69 FR 75144, that amended § 90.155 to provide holders of multilateration location service authorizations with five- and ten-year benchmarks to place in operation their base stations that utilize multilateration technology to provide multilateration location service to one-third of the Economic Area's (EA's) population within five years of initial license grant, and two-thirds of the population within ten years. At the five- and ten-year benchmarks, licensees are required to file a map and FCC Form 601 showing compliance with the coverage requirements pursuant to § 1.946 of the Commission's rules.

On January 31, 2007, via an Order on Reconsideration, and Memorandum Opinion and Order, under DA 07-479, the FCC granted two to three additional years to meet the five-year construction requirement for certain multilateration Location and Monitoring Service Economic Area licenses, and extended the 10-year requirement for such licenses two years.

These requirements will be used by Commission personnel to evaluate whether or not certain licensees are providing substantial service as a means of complying with their construction requirements, or have demonstrated that an extended period of time for construction is warranted.

*OMB Control Number:* 3060-0288.

*Title:* 47 CFR 78.33, Special Temporary Authority (Cable Television on Relay Stations).

*Type of Review:* Extension of a currently approved collection.

*Number of Respondents and Responses:* 3 respondents and 3 responses.
