

AIM. Respondents will include AIM State Teams that receive HRSA funding through the AIM Capacity program, as well as AIM State Teams that do not receive HRSA funding to implement AIM, to gauge the full reach of the program.

Need and Proposed Use of the Information: The information will be used by the HRSA program team to understand and report on AIM program reach and potential growth regarding participating birthing facilities and patient safety bundles implemented, inform development of resources and types of TA offered, and develop program targets. In addition,

information on the number of participating birthing facilities and patient safety bundles being implemented is shared on the HRSA and ACOG AIM websites. The biannual survey is the only place this information is collected.

Likely Respondents: Respondents are AIM State Teams in all States and jurisdictions enrolled in AIM, including AIM Capacity award recipients and AIM State Teams that do not receive direct funding from HRSA.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time

needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Total Estimated Annualized Burden Hours:

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
AIM Biannual Survey	52	1 per survey; 2 surveys per year	104	1	104
Total	52	1 per survey; 2 surveys per year	104	1	104

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
