**DEPARTMENT OF JUSTICE****Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On May 22, 2013, the Department of Justice lodged a proposed Consent Decree in *United States v. PCS Nitrogen Fertilizer, L.P.*, Civil Action No. 2:13–cv–03660–LMA–ALC, with the United States District Court for the Eastern District of Louisiana.

The PCS Nitrogen (“PCS”) Geismar, Louisiana plant is located on about 10 acres at 10886 Highway 75 Geismar, Louisiana 70737. The facility is a phosphoric acid plant that produces phosphoric acid and manufactures nitrogen solutions, phosphate fertilizer and other industrial products. The phosphoric acid production process is subject to new source standards in the National Emissions Standard for Hazardous Air pollutants (“NESHAPS”) for phosphoric acid manufacturing plants, promulgated under Section 112 of the Clean Air Act, and codified in 40 CFR part 63, Subpart AA.

Like the rest of the phosphoric acid industry, the PCS facility uses scrubbers to control air emissions, particularly fluorides, emanating from its phosphoric acid process equipment. The facility's cooling towers are therefore subject to the maximum available control technology (“MACT”) standard set forth at 40 CFR 63.602(e).

PCS historically discharged phosphoric acid scrubber effluent into its cooling ponds, and thereafter introduced the commingled effluent and pondwater into its cooling towers in violation of 40 CFR 63.602(e). Under the proposed Decree, PCS will pay a penalty of \$198,825.30 and agrees to disable the two pre-scrubber elements discharging to the ponds and cooling tower; the majority of this injunctive relief was completed as of December 20, 2012, at
