

conducted for the draft EIS indicated less controversy than anticipated when the project was initiated. Furthermore, changes to the proposal, specifically, dropping the proposed alternative transportation system (shuttle bus), reduced the scope of this planning effort. For these reasons the NPS determined the proposal would not constitute a major federal action requiring an EIS.

In place of the EIS, the NPS has issued an environmental assessment (EA) that considers the following four alternatives and related impacts:

No-Action Alternative: Continue the present management direction as guided by the 1984 General Management Plan and the 1996 Development Concept Plan.

Preferred Alternative: Enhance the experience of viewing Exit Glacier, which is the main attraction of the area, and provide for additional non-motorized recreational opportunities.

Alternative A: Improve interpretation, education, and non-motorized recreation by increasing staff and developing programs rather than improving infrastructure.

Alternative B: Improve the infrastructure of the Exit Glacier area to accommodate a greater number of visitors and recreational activities year-round.

DATES: The EA was distributed for public comment in May 2004, and a decision will be made in June 2004.

DEPARTMENT OF THE INTERIOR

National Park Service

General Management Plan Amendment, Abbreviated Final Environmental Impact Statement, Green Spring Unit, Colonial National Historical Park, VA

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of Availability of a Record of Decision on the Abbreviated Final Environmental Impact Statement for the General Management Plan Amendment, Green Spring Unit, Colonial National Historical Park.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, 83 Stat. 852, 853, codified as amended at 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of the Record of Decision for the Final General Management Plan Amendment/Abbreviated Final Environmental Impact Statement (Final GMPA/AEIS) for the Green Spring Unit, Colonial National Historical Park, Virginia. On March 31, 2004 National Park Service Regional Director, Northeast Region approved the Record of Decision for the project. As soon as practicable, the National Park Service will begin to implement the Selected Action, described as the Preferred Alternative in the Final GMPA/AEIS issued on September 12, 2003. The Selected Action describes a long-term approach to managing Green Spring and best accomplishes the statutory mission of the National Park Service to provide long-term protection of Green Spring's resources and values while allowing for high quality visitor use and enjoyment. Consistent with the park's mission, NPS policy, and other laws and regulations, this action will guide the development and management of the park over the next 15 to 20 years. The Selected Action incorporates various zoning and management prescriptions to ensure resource preservation and public enjoyment of the park. National Park Service and partners will develop first time interpretive, visitor, and management facilities and programs on the site in two stages: before and after completion of research and closure of Centerville Road. Stage One will focus on research, fieldwork and visitor programs with temporary, low-impact site development. Stage Two's primary site development features include combined Visitor Contact Station/ Archeological Support Facility, 17th Century landscape restoration, and interpretive media/devices. The Selected Action and 2 alternatives were analyzed in the Draft and Abbreviated Final Environmental Impact Statements. The full range of foreseeable environmental consequences was assessed, and appropriate mitigating measures were identified. The Selected Action will have both positive and negative impacts on the park's natural and cultural resources; however, most of the negative impacts will be minor and localized. The Selected Action also best accomplishes the stated purposes of the plan as described on pp.14 of the "Purpose and Need for Action", Final General Management Plan Amendment/Abbreviated Final Environmental

Impact Statement (Final GMPA/AEIS) for Colonial NHP, and park mission goals. Consequently, the Selected Action best addresses the conservation of values embodied in the Organic Act. The National Park Service has determined that implementation of the Selected Action, Alternative C of the Final General Management Plan Amendment/Abbreviated Final Environmental Impact Statement, will not constitute an impairment to Green Spring's resources and values. This conclusion is based on a thorough analysis of the environmental impacts described in the Draft GMPA/EIS and Final GMPA/AEIS, the public comments received, relevant scientific studies, and the professional judgment of the decision-maker guided by the 2001 edition of National Park Service Management Policies. Overall, the plan results in major benefits to park resources and values, opportunities for their enjoyment, and does not result in their impairment. The Record of Decision includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a finding on impairment of park resources and values, a listing of measures to minimize environmental harm, and an overview of public involvement in the decision-making process.

FOR FURTHER INFORMATION CONTACT: Superintendent, Colonial National Historical Park, Post Office Box 210, Yorktown, Virginia 23690 or by calling 757-898-2401 or via e-mail at becky_eggleston@nps.gov.

SUPPLEMENTARY INFORMATION: Copies of the Record of Decision may be obtained from the contact listed above.

Dated: May 13, 2004.

Alec Gould,
Superintendent, Colonial National Historical Park.

Notice of Realty Action: Boundary Revision at Fredericksburg and Spotsylvania County Battle Fields Memorial National Military Park

I. Pursuant to the Land and Water Conservation Fund Act, as amended (16 U.S.C. 4601-9(c)), the Secretary of the Interior is authorized to make minor revisions of the boundary of an area,

whenever he determines that to do so will contribute to, and is necessary for, the proper preservation, protection, interpretation, or management of the unit. A minor boundary revision of Fredericksburg and Spotsylvania County Battle Fields Memorial National Military Park is needed to include the following tracts of land:

Tract 01-135 is a 0.11 of an acre tract that is situated approximately 1200 feet westerly from the centerline of Lansdowne Valley Road aka Route 638. Tract 01-135 occupies a strategic location in interpreting the first battle of Fredericksburg in 1862. It is important for the park to preserve this ground so visitors can clearly understand how General Lee geographically changed a weak part of his defensive line.

Tract 01-157 is a 0.14 of an acre tract that is situated in an area known as Hazel Run approximately 600 feet westerly from US Route 1. Tract 01-157 is located in an area of the Fredericksburg Battle Fields that played a role in the outcome of both the first and second battles of Fredericksburg in 1862 and 1863. Reinforcements to General Lee used a road that went up the backside of an area across Tract 01-157. During the second battle wounded confederate soldiers sought shelter and medical attention at temporary field hospitals set up along an area of this proposed donation.

Tract 03-253 is a 0.49 area tract that is located 1200 feet from the north/east side of Route 3 aka Orange Turnpike, Tract 03-253 is part of the "take-off" area of one of the most significant battle actions of the entire Civil War. This is the area that Stonewall Jackson's now famous "Flank Attack" has become one of the best known military maneuvers in all American military history.

Tract 03-263 is a 10.89 acre tract currently located outside the boundary. Tract 03-263 is an uneconomic remnant of Tract 03-214. Tract 03-214 and Tract 03-263 must be acquired at the same time. Both tracts are adjacent to the intersection of Jackson Trail East and Brock Road, in the Chancellorsville Battle Fields unit of the park. General Thomas J. "Stonewall" Jackson's Corps marched along these roads. Jackson's Flank Mark and subsequent attack are among the best known events of all American military history. Acquisition of Tract 03-263 would provide additional protection of the Brock Road portion of the march, where no NPS protection currently exists.

Tract 04-199 consists of 0.18 of an acre of land and is located immediately adjacent to Jackson Trail West in the Wilderness Battle Fields unit of the park. Inclusion of this tract will permit

the park to screen a new sub-division from visitors following this important road trace, and also eliminate an existing access to the same sub-division.

Detailed information concerning this exchange, and boundary revision, including precise legal descriptions, Land Protection Plans, environmental assessments and cultural reports are available at the following address:

Superintendent, Fredericksburg and Spotsylvania County Battle Fields Memorial Military Park, 120 Chatham Land, Fredericksburg, VA 22405.

Editorial note: This document was received at the Office of the Federal Register on July 21, 2004.

Dated: August 29, 2003.

Patricia Phelan,

Acting Regional Director, Northeast Region.
