

CFR 205.606 does not establish a blanket exemption to the National List requirements for nonorganic agricultural products that are not commercially available. On June 9, 2005, the district court issued its final judgment and order in the case. A copy of the final judgment and order may be found at <https://www.ams.usda.gov/nop>.

The First Circuit's decision recognized that some producers, handlers and certifiers may have misinterpreted 7 CFR 205.606 to mean that any nonorganic agricultural product which was determined by an accredited certifying agent to be not commercially available in organic form could be used in organic products, without being individually listed pursuant to the National List procedures. The court held that such an interpretation is contrary to the plain meaning of OFPA. However, because of the potential for confusion, and to enable an orderly transition to compliance with the regulation, the district court's order regarding the meaning of 7 CFR 205.606 shall become effective and enforceable two years (June 9, 2007) from the date of its judgment and order.

Dated: June 27, 2005.

Kenneth C. Clayton,

Acting Administrator, Agricultural Marketing Service.

[Docket Number FV-04-304]

United States Standards for Grades of Mangos

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Reopening and extension of the comment period.

SUMMARY: Notice is hereby given that the comment period on the proposed United States Standards for Mangos is reopened and extended.

DATES: Comments must be received by August 30, 2005.

ADDRESSES: Interested persons are invited to submit written comments to the Standardization Section, Fresh Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Ave., SW., Room 1661, South Building, Stop 0240, Washington, DC 20250-0240, fax (202) 720-8871, e-mail FPB.DocketClerk@usda.gov. Comments

should make reference to the dates and page number of this issue of the **Federal Register** and will be made available for public inspection in the above office during regular business hours and on the Internet.

The draft of the United States Standards for Grades of Mangos is available by accessing AMS's Home Page on the Internet at: <http://www.ams.usda.gov/fv/fpbdoctlist.htm>.

FOR FURTHER INFORMATION CONTACT:

David L. Priester, at the above address or call (202) 720-2185; e-mail David.Priester@usda.gov.

SUPPLEMENTARY INFORMATION: A notice was published in the **Federal Register**, March 11, 2005, (70 FR 12173) requesting comments on the proposed United States Standards for Grades of Mangos. The proposed standards include: Grades, sizes, tolerances, application of tolerances, definitions, and a table of defects. Additionally, the Agricultural Marketing Service (AMS) is seeking comments regarding any other revisions that may be necessary to better serve the industry. The comment period ended May 10, 2005.

A comment was received from an industry association, representing independent produce wholesale receivers, expressing the need for additional time to comment. The association requested the comment period be extended to allow the association an opportunity to meet with their members to discuss the impact of the proposed standards.

After reviewing the request, AMS is reopening and extending the comment period in order to allow sufficient time for interested persons, including the association, to file comments.

Authority: 7 U.S.C. 1621-1627.

Dated: June 27, 2005.

SUPPLEMENTARY INFORMATION: *Title:* Importation of Pork-Filled Pasta.

OMB Number: 0579-0214.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service of the United States Department of Agriculture (USDA) is responsible for protecting the health of our Nation's livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible. The regulations in 9 CFR part 94 (referred to below as the regulations) prohibit or restrict the importation of specified animals and animal products into the United States to prevent the introduction into the U.S. livestock population of certain contagious animal diseases, including swine vesicular disease (SVD). Section 94.12 of the regulations contains, among other things, specific processing, recordkeeping, and certification requirements for pork-filled pasta products exported to the United States from regions affected with SVD.

The regulations require, among other things, that the pork-filled pasta products be accompanied by a certificate stating that the product has been handled and processed according to the requirements set forth in the regulations. This certificate must be issued and signed by an official of the National Government of the region in which the pasta products were processed.

In addition, the processing facility where the pork-filled pasta products are produced must maintain original records (to be kept for a minimum of 2 years) that identify, for each lot of pork used, the date the pork entered the facility, the lot number, the health certificate that accompanied the pork from the slaughter/processing facility to the meat-filled pasta processing facility, and the date the pork either began either dry-curing or was cooked.

These records would provide important information in any traceback investigation that may need to be conducted by officials of the region of origin of the pork-filled pasta product, or by officials of the USDA.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as

affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.25 hours per response.

Respondents: Officials of the National Government of the region in which the pork-filled pasta product is processed.

Estimated annual number of respondents: 5.

Estimated annual number of responses per respondent: 20.

Estimated annual number of responses: 100.

Estimated total annual burden on respondents: 125 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of June 2005.

Elizabeth E. Gaston,

Acting Administrator, Animal and Plant Health Inspection Service.
