**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

**A. Overview of Information Collection**

*Title of Information Collection:*  
Housing Opportunities for Persons With AIDS (HOPWA): Grant Reporting, Recordkeeping, and Closeout.

*OMB Approval Number:* 2506–0133.

*Type of Request:* Revision of currently approved collection.

*Form Number:* HUD–4153, HUD–4154, HUD–4155, SF–425.

*Description of the need for the information and proposed use:*

The current Paperwork Reduction Act approval under OMB Control No. 2506–0133 covers reporting, record keeping, and application requirements for both the HOPWA formula and competitive grant programs. The competitive grant program includes new competitive grants and renewal/replacement grants. This revision applies to reporting and

closeout requirements for all HOPWA grantees.

This submission requests to add additional data elements to form HUD–4155, remove forms that are no longer needed, remove pre-award information that will be covered with a child submission through the HUD generic information collection request under OMB Control Number 2501–0044, adjust language in form HUD–4154, update form HUD–4153 to reflect published Notices of Funding Opportunity (NOFOs), and add grant closeout to the paperwork collection package with a new HOPWA grant closeout form.

The addition of information collection for grant closeout will apply to all HOPWA grantees. The use of a new HOPWA grant closeout certification form, the SF425, and all other relevant

reports to the grant project will ensure grantees are able to close active grants when the project is complete by determining that all applicable administrative actions and all required work of the grant have been completed by the grantee.

HUD systematically reviews and conducts data analysis in order to prepare national and individual grantee performance profiles that are not only used to measure program performance against benchmark goals and objectives, but also to communicate the program's achievement and contributions towards Departmental strategic goals. HUD plans to continue using the data elements in this submission for these purposes.

*Respondents:* HOPWA competitive and renewal grant applicants, and all HOPWA formula, competitive, and renewal grantees.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Consolidated APR/CAPER data elements (HUD–4155) ...	258.00	1.00	258.00	40.00	10,320.00	\$28.73	\$296,493.60

HUD–4153, SPNS Grant Model Report (new competitive SPNS grant only) .....	40.00	1.00	40.00	40.00	1,600.00	28.73	45,968.00
Recordkeeping for Competitive, PSH, and Formula Grantees .....	258.00	1.00	258.00	60.00	1,5480.00	28.73	444,740.40
Grant Amendments (budget change, extension, or early termination) .....	30.00	1.00	30.00	6.00	180.00	28.73	5,171.40
Grant Closeout (closeout certification, SF425, and all financial, performance, and other reports required as a condition of the grant) .....	258.00	1.00	200.00	12.00	2,400.00	28.73	68,952.00
<b>Total .....</b>	<b>884.00</b>	<b>.....</b>	<b>826.00</b>	<b>.....</b>	<b>30,780.00</b>	<b>.....</b>	<b>\$884,309.40</b>

HOPWA grantees and applicants may be required to respond to more than one piece of information collection. All annualized costs reflect staff time spent on tasks in the table. The hourly rate of

\$28.73 is based on a GS–9 for Rest of United States. 10,320 hours \* \$28.73 = \$296,493.

The estimated costs under this OMB approval number in this request is lower

than previous approval. This accounts for the removal of forms HUD–40110–C/D, and removal of pre-award information. Updates on the chart also include the addition of grant closeout,

increases for a larger number of new competitive SPNS grants, and higher hourly wage.

**Abstract:** The Salmon River Basin in central Idaho contains minerals that are in high demand due to the energy transition, which is increasing development pressure. The basin is also renowned for its recreational activities, notably those related to its wild and scenic rivers, and its cultural importance for subsistence hunting and fishing. These and other values important in the Salmon River Basin (SRB) are commonly characterized as cultural ecosystem services—the non-material benefits that people obtain from nature. They are culturally very important, but their value is not easily or appropriately monetized and as a result they are rarely accounted for quantitatively in environmental assessments. The overarching goal of the project is to develop spatial and non-spatial information about social values for these ecosystem services so that they can be considered in the context of mineral development proposals, environmental impact assessments, and other resource management decisions.

**Title of Collection:** Cultural Ecosystem Services Mapping Survey.

**OMB Control Number:** 1028–NEW.

**Form Number:** None.

**Type of Review:** New.

**Respondents/Affected Public:**

Households within the Salmon River Basin (n=2400), summer river users on the Main Salmon (n=800), and tourists to the region (n=800).

**Total Estimated Number of Annual Responses:** 2,000.

**Estimated Completion Time per Response:** 15 minutes.

**Total Estimated Number of Annual Burden Hours:** 500 hours.

**Respondent's Obligation:** Voluntary.

**Frequency of Collection:** One time.

**Total Estimated Annual Nonhour Burden Cost:** None.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).
