Title; Associated Form; and OMB Number: JAGC Application Survey; OMB Control Number 0703-0059.

Needs and Uses: The U.S. Navy Judge Advocate General requires a method to improve recruiting and accession board processes to recruit and select the best individuals as judge advocates. A survey will allow the JAG Corps to assess whether certain traits and/or behaviors are indicators of future success in the JAG Corps. If the survey results reveal statistically significant personal indicators of success, then those factors can provide a reliable basis for focusing recruiting efforts and making more efficient selection decisions.

Affected Public: Individuals applying for a commission as an officer in the United States Navy Judge Advocate General's Corps.

Annual Burden Hours: 600.

Number of Respondents:
approximately 800.

Responses per Respondent: 1.

Average Burden per Response: 45 minutes.

Frequency: Survey will be available to individuals who submit an application throughout the year.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

This online applicant survey will help analyze Navy JAG Corps applicants and focus future recruiting efforts. A Navy JAG Corps application consists of personal academic history (e.g., grade point average and Law School Admissions Test (LSAT) scores), as well as objective assessments of traits and values through a structured interview score. This survey gathers information about an applicant's personality traits and tendencies, but the results are not part of the application. After selection of candidates for commission, an individual's survey results will be combined with that individual's application data and with measures of performance by that officer over time. Collectively, this information will provide a more thorough picture of an individual officer. Through this longitudinal study, the Navy JAG Corps will determine if any particular personal activities, academic performance, or personality traits (or combination of factors) constitute statistically significant indicators of success as Navy JAG Corps officers. If so, then recruiting efforts and selection criteria can be modified to find efficiencies and reduce costs.
