

Washington, DC. The meeting is tentatively scheduled to begin at 10 a.m. on November 7, and at 9 a.m. on November 8.

Topics for discussion include: Medicare in the context of the federal budget; emergency department use and beneficiary access to care; beneficiary access to post-hospital care—results of a focus group with hospital discharge planners; how Medicare makes coverage decisions; payment for ambulatory surgery and other services provided in multiple settings; examining growth in the volume of physician services; M+C payment areas—exploring alternatives; choice of SNF services in Medicare+Choice; PPS for inpatient psychiatric facilities; expanded transfer policy for hospital inpatient services; and workplans for assessing the adequacy of payments for outpatient dialysis, skilled nursing facilities, and home health services.

Agenda will be mailed on November 30, 2002. The full agenda will be available on the Commission's website (www.MedPAC.gov).

ADDRESSES: MedPAC's address is: 601 New Jersey Avenue, NW., Suite 9000, Washington, DC 20001. The telephone number is (202) 220-3700.

FOR FURTHER INFORMATION CONTACT: Diane Ellison, Office Manager, (202) 220-3700.

Mark E. Miller,

Executive Director.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 7, Application for License to Export Nuclear Equipment and Material.

2. *Current OMB approval number:* 3150-0027.

3. *How often the collection is required:* On occasion; for each separate request for a specific export license and for exports of incidental radioactive material using existing general licenses.

4. *Who is required or asked to report:* Any person in the U.S. who wishes to export: (a) Nuclear equipment and material subject to the requirements of a specific license, (b) radioactive waste subject to the requirements of a specific license, and (c) incidental radioactive material that is a contaminant of shipments of more than 100 kilograms of non-waste material using existing NRC general licenses.

5. *The number of annual respondents:* 70.

6. *The number of hours needed annually to complete the requirement or request:* 191 hours (190.8).

7. *Abstract:* Any person in the U.S. wishing to export nuclear material and

equipment requiring a specific authorization or radioactive waste requiring a specific authorization ordinarily should file an application for a license on NRC Form 7, except that certain submittals should be filed by letter. The application will be reviewed by the NRC and by the Executive Branch, and if applicable statutory, regulatory, and policy considerations are satisfied, the NRC will issue a license authorizing the export.

A completed NRC Form 7 must also be filed by any person in the U.S. wishing to use existing NRC general licenses for the export of incidental radioactive material before the export takes place (if the total amount of the shipment containing the incidental radioactive material exceeds 100 kilograms). The form is reviewed by the NRC to ensure that the Agency is informed before the fact of these kinds of shipments and to allow NRC to inform other interested parties, as appropriate, including import control authorities in interested foreign countries.

Submit, by December 30, 2002, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F23, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 E6, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail at INFCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 22nd day of October, 2002.
