DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Proposed [Preliminary] Airworthiness Criteria for Airworthiness Certification of Transport Category Airships**

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability; request for comments.

SUMMARY: This notice announces the initiation of a Federal Aviation Administration (FAA) proposed airworthiness criteria for transport category airships. This notice advises the public, and especially manufacturers and potential manufacturers of transport category airships, that the FAA intends to develop an airworthiness criteria for transport category airships. This notice includes the Transport Airship Requirement (TAR) as developed by the Inspectie Verkeer en Waterstaat—Divisie Luchtvaart (CAA-NL), the civil aviation authority of the Netherlands, and the Luftfahrt Bundesamt (LBA), the civil aviation authority for Germany. The TAR is based on 14 CFR part 25 transport airplane requirements and FAA-P-8110-2 Airship Design Criteria. It is intended that the TAR will form the core of a United States airworthiness criteria for transport category airships. While considering the TAR as the core criteria for the certification of transport airships, the FAA may propose alternate or additional requirements for some portions of the TAR. This notice is necessary to advise the public of the development of this proposed airworthiness criteria and give all interested persons an opportunity to present their views on it.

DATE: Send your comments by February 5, 2002.

Discussion: In September 2001, the Small Airplane Directorate proposed airworthiness criteria for transport category airships. We are making the proposed airworthiness criteria, including "Transport Airship Requirements" (TAR), dated March 2000, available to the public and to all manufacturers for their comments.

Airships are certificated under the provisions of 14 CFR 21.17(b), which
