

addition, the discussion will focus on the relationship between the Commission's audit functions and enforcement activity and whether the No-Action Letter program⁴ is useful in obtaining guidance on potential enforcement issues.

The third panel will focus on reliability issues. With the new responsibilities given to the Commission by EPCA 2005 with respect to the reliability of the nation's bulk power system, the Commission has approved numerous reliability standards that now are mandatory, and has authorized an enforcement mechanism through Regional Entities and the Electric Reliability Organization (ERO). This discussion will look at how the Regional Entities and the ERO are processing self-reported violations and other compliance matters, and will address emerging practical issues of enforcement as well as the Commission's own authority to enforce mandatory reliability standards and its interest in the most effective way to achieve compliance with the standards.

A further notice will be issued before the conference to finalize the conference format and schedule. The Commission anticipates that it will also issue background material to assist in framing the discussion. Also, we note that the following topics will not be discussed as they are involved in or implicated by pending Commission proceedings: standards of conduct, market monitoring, transparency, and market manipulation.

To ensure adequate time to engage in a meaningful dialog, participants on each panel will be limited to four or five people. Anyone interested in participating as a panelist may contact Anna Cochrane, Deputy Director of the Office of Enforcement, by e-mail at anna.cochrane@ferc.gov or by phone at (202) 502-8100.

As previously noted, all interested persons are invited to attend the conference, and there is no registration fee to attend. The conference will not be transcribed but will be web cast. A free web cast of this event will be available through <http://www.ferc.gov>.
