This Notice also lists the following information:

Title of Proposal: Section 8 Random Digit Dialing Fair Market Rent

Telephone Survey. OMB Control Number: 2528-0142.

Description of the need for the information and proposed use: This provides HUD with a fast, inexpensive way to estimate and update Section 8 Fair Market Rents (FMRs) in areas not covered by AHS or CPI surveys, and in areas where FMRs are believed to be incorrect. It also provides estimates of annual rent changes. Section 8(C)(1) of the United States Housing Act of 1937 requires the Secretary to publish Fair Market Rents (FMRs) annually to be effective on October 1 of each year. FMRs are used for the Section 8 Rental Certificate Program (including space rentals by owners of manufactured homes under that program); the Moderate Rehabilitation Single Room Occupancy program; housing assisted under the Loan Management and Property Disposition programs; payment standards for the Rental Voucher program; and any other programs whose regulations specify their use.

Random digit dialing (RDD) telephone surveys have been used for several years to adjust FMRs. These surveys are based

on a sampling procedure that uses computers to select statistically random samples of telephone numbers to locate certain types of rental housing units for surveying. HUD contracts with a private company to conduct two types of RDD surveys: (1) Approximately 50 individual FMR areas are surveyed every year to test the accuracy of their FMRs; (2) In addition, 20 RDD surveys are conducted every year to provide updating factors for FMRs not surveyed individually and for Annual Adjustment Factors (AAFs). These surveys are conducted in the non-metropolitan portions of all 10 HUD regions, and in the 10 metropolitan portions that do not have their own Consumer Price Index (CPI) surveys.

Members of affected public: Individuals or households living in areas surveyed.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Type of survey	Number of phone calls made	Average minutes each	Minutes	Hours
TELEPHONE SURVEYS:				
Number who pick up phone but are screened out	416,970	1.16	484,942	8,082
Total interviewed (movers and stayers)	42,205	4.32	182,364	3,039
MAIL SURVEYS	3,984	5.00	19,920	332
Annual Total	463,159		687,226	11,453

Status of the proposed information collection: Pending OMB approval.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended; and Section 8(C)(1) of the United States Housing Act of 1937.

This Notice also lists the following information:

Title of Proposal: Mail survey of HOME Investment Partnership Program administrators regarding homebuyer activities funded by the HOME Program.

Description of the need for the information and proposed use: The information to be collected is part of a larger study, conducted by Abt Associates Inc., of homebuyer programs funded with HUD's HOME block grant program. Since HOME is the principal

HUD-funded program for supporting homebuyer assistance and homebuyer development programs, it is imperative that HUD understands the type of homebuyer programs being developed using HOME. All participating jurisdictions (PJS) will receive a mail survey designed to gather information about the key characteristics of homebuyer programs. The topics to be covered include: listing the individual homebuyer programs funded; general information on each of these programs; targeting eligibility for the programs; underwriting requirements; use of sub-recipients and contractors; counseling provided; marketing and outreach; program partners; use of direct assistance or development programs; and types of loan-level data available (but not about the loans themselves). The data will be used to develop a comprehensive database on HOME-

funded homebuyer programs. This research is intended to help HUD better understand the characteristics of homebuyer programs funded by the HOME program. This understanding is crucial in: (a) Determining how and to what extent the HOME program is being used for homebuyer activities; and (b) informing policy development decisions regarding the HOME program. At present there is no systematic information on how HOME funds are used to support homebuyer activities. This survey will fill this gap.

Members of affected public: State and local administrators of the HOME program.

Estimation of the total number of hours needed to prepare the information collection, including the number of respondents, frequency of response, and hours of response:

Types of respondents	Number of respondents	Number of responses	Hours per respondent	Total burden hours
State and Local Program Administrators	595	1	1	595

Total Estimated Annual Burden Hours: 595 (one time).

Status of the proposed information collection: Pending OMB approval.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: February 7, 2002.

General Deputy Assistant Secretary for Policy Development and Research.
