SUPPLEMENTARY INFORMATION:

I. Background

1. On July 19, 2018, the Commission issued a Notice of Proposed Rulemaking (NOPR),¹ proposing to revise parts 45 and 46 of the Commission's regulations related to interlocking officers and directors to clarify and update the requirements for both applicants and holders. The Commission proposed to: (1) Update its regulations to reflect statutory changes to the circumstances in which an applicant who would otherwise require Commission authorization to hold an interlocking position need not do so; (2) revise its regulations to clarify its position on late-filed applications and informational reports; (3) revise its regulations to clarify that an interlock holder is not required to file a notice of change when merely changing positions within a holding company; (4) revise its regulations to state that applicants do not need to list in their applications public utilities that do not have officers or directors; (5) revise its regulations with regard to public utilities owned by a natural person; and (6) update its regulations to remove § 46.2(b), which contains definitions and phrases now rendered obsolete.

2. Comments were filed by Edison Electric Institute (EEI), NRG Power Marketing LLC (NRG), Just Energy (U.S.) Corp. (Just Energy), Electric Power Supply Association (EPSA), National Rural Electric Cooperative Association (NRECA), National Grid USA (National Grid), and Golden Spread Electric Cooperative, Inc. (Golden Spread). All comments were generally supportive of the proposed changes. Some commenters requested clarification on certain proposed changes, while others proposed additional changes. We address these issues below.

II. Discussion
