

survey year. At the first household visit, the surveyor explains the survey purposes and invites household participation. The surveyor returns at the end of the season of most harvest and at the end of the two other seasons combined to help the household complete the harvest report form.

We have designed the survey methods to streamline procedures and reduce respondent burden. We plan to use two forms for household participation:

- FWS Form 3–2380 (Tracking Sheet and Household Consent). The surveyor visits each household selected to participate in the survey to provide information on the objectives and to obtain household consent to participate.

The surveyor uses this form to record consent and track subsequent visits for completion of harvest reports.

- FWS Forms 3–2381–1, 3–2381–2, 3–2381–3, and 3–2381–4 (Harvest Report). The Harvest Report has drawings of bird species most commonly available for harvest in the different regions of Alaska, with fields for writing down the numbers of birds and eggs taken. There are four versions of this form: Interior Alaska, North Slope, Southern Coastal Alaska, and Western Alaska. This form has a sheet for each season surveyed, and each sheet has fields for the household code, community name, harvest year, date of completion, and comments.
