[Docket No. CP21–452–000]

Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline; Northern Natural Gas Company

Take notice that on May 27, 2021, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, NE 68124, filed in the above referenced docket a prior notice pursuant to Sections 157.205 and 157.213(b) of the Federal Energy Regulatory Commission’s regulations under the Natural Gas Act, seeking authorization to convert the existing McCleary No. 5 observation well in the Redfield Storage Field in Dallas County, Iowa into a withdrawal well. The proposed facilities include a new well building containing various surface facilities to allow the connection of the McCleary No. 5 well to existing pipeline laterals, two 3-inch-diameter gas pipeline laterals (1,230 and 1,280 feet in length) and 955 feet of 3-inch-diameter water line. The new well building would contain various flow control, measurement, and communications equipment. The gas pipeline laterals, and water line would connect to existing gas and water lines within the Redfield storage complex. The project is designed to improve Northern’s ability to recover storage gas from the Mount Simon and Saint Peter reservoirs in the southeastern section of the field as these reservoirs are currently not being effectively drained by the existing array of withdrawal wells. Northern proposes to install these facilities under authorities granted by its blanket certificate issued in Docket No. CP82–401–000.¹ The estimated cost to convert the McCleary No. 5 well is approximately \$1.3 million all as more fully set forth in the request which is on file with the Commission and open to public inspection.
