

Verde. The application does not propose a change in the rights, obligations, or interests of the other licensees of Palo Verde. In addition, no physical changes to Palo Verde or operational changes are being proposed.

By letter dated October 3, 2000, Arizona Public Service Company submitted the associated conforming amendments request. The proposed amendments would reflect the change in the name of El Paso Electric Company to MiraSol Generating Company in the licenses.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the indirect transfer of a license if the Commission determines that the underlying transaction that will effectuate the indirect transfer will not affect the qualifications of the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By November 22, 2000, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicants, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance

with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR Part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)–(2).

Requests for a hearing and petitions for leave to intervene should be served upon counsel for EPE, David B. Raskin, Esq., Steptoe & Johnson LLP, 1330 Connecticut Avenue, NW, Washington, DC 20036; the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by December 1, 2000, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the license transfer application filed by EPE dated July 6, 2000, the supplemental letter dated July 7, 2000, from counsel for EPE, and the application for the proposed license amendments filed by the Arizona Public Service Company dated October 3, 2000,

which are available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov>.

Dated at Rockville, Maryland, this 26th day of October 2000.

For the Nuclear Regulatory Commission.

Girija S. Shukla,

Project Manager, Section 2, Project Directorate IV & Decommissioning Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–368]

Notice of Correction to Federal Register Notice in the Matter of Entergy Operations, Inc. (Arkansas Nuclear One, Unit 2); Exemption

On October 18, 2000, the **Federal Register** published an Exemption to Facility Operating License No. NPF–6, which authorizes operation of Arkansas Nuclear One, Unit 2. On page 62376, in the last sentence of Section IV, a date was omitted. The sentence should read: "The staff's detailed Safety Evaluation (and this exemption) are enclosures in the letter to the licensee dated October 12, 2000."

Dated at Rockville, Maryland, this 26th day of October 2000.

[Docket No. 50–298]

Nebraska Public Power District; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Nebraska Public Power District (the licensee) to withdraw its June 8, 1999, application for the proposed amendment to Facility

Operating License No. DPR-46 for the Cooper Nuclear Station, located in Nemaha County, Nebraska.

The proposed amendment would have revised the Technical Specifications to correct the method by which the Standby Gas Treatment System heaters are tested.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 14, 1999 (64 FR 38030). However, by letter dated September 29, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 8, 1999, and the licensee's letter dated September 29, 2000, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 26th day of October 2000.

For the Nuclear Regulatory Commission.

Mohan C. Thadani,

Senior Project Manager, Section 1, Project Directorate IV & Decommissioning, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

DEPARTMENT OF ENERGY

Nuclear Regulatory Commission

[Docket No. 50-328]

Tennessee Valley Authority; Notice of Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (TVA) to withdraw its June 7, 1999, application for proposed amendments to Facility Operating Licenses No. DPR-79 for the Sequoyah Nuclear Plant (SQN), Unit 2, located in Hamilton County, Tennessee. Notice of Consideration of Issuance of of this amendment was published in the **Federal Register** on July 28, 1999, (64 FR 40907).

The purpose of the licensee's amendment request was to revise the Technical Specifications (TS) to increase the maximum allowed specific activity of the primary (reactor) coolant

from 0.35 microcuries/gram dose equivalent Iodine-131 (I-131) to 1.0 microcuries/gram dose equivalent I-131 for the Unit 2 Cycle 10 core. The change for Unit 2 back to 1.0 microcuries/gram (the previous TS limit) was to have been a provisional allowance to provide operational flexibility with respect to the reactor coolant specific activity because an unexpected increase in the specific activity associated with I-131 occurred during startup following the previous refueling outage due presumably to minor fuel clad leakage.

By letter dated October 17, 2000, TVA withdrew the proposed change on the basis that reactor coolant dose equivalent I-131 activity had not closely approached the current TS limit and was not expected to before the refueling outage that commenced on October 22, 2000.

For further details with respect to this action, see the application for amendments dated August 30, 1999, and TVA's letter dated October 17, 2000, which withdrew the application for the license amendment.

These Documents may be examined, and/or copied for a fee, at the Commission's Public Document room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 26th day of October 2000.

For the Nuclear Regulatory Commission.

Ronald W. Hernan,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-1-P

DEPARTMENT OF ENERGY

Nuclear Regulatory Commission

[Docket Nos. 50-327 and 50-328]

Tennessee Valley Authority; Notice of Withdrawal of Application for Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (TVA) to withdraw its August 30, 1999, application for proposed amendments to Facility Operating Licenses Nos. DPR-77 and DPR-79 for the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County,

Tennessee. Notice of Consideration of Issuance of this amendment was published in the **Federal Register** on October 6, 1999 (64 FR 54382).

The proposed amendments would have revised the facility technical specifications (TS) by adding a Section 3.0.7 to address the use of interim provisions upon the discovery of an unintended TS action.

Subsequently, by letter dated October 17, 2000, TVA withdrew the proposed amendment application on the basis that approval of the amendment was unlikely because of legal concerns on the part of the Commission.

For further details with respect to this action, see the application for amendments dated August 30, 1999, and the TVA's letter dated October 17, 2000, which withdrew the application for license amendments.

These Documents may be examined, and/or copied for a fee, at the Commission's Public Document room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 27th day of October 2000.

For the Nuclear Regulatory Commission.

Ronald W. Hernan,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

THE PEACE CORPS

Agency Information Collection Under Review by the Office of Management and Budget

AGENCY: Peace Corps.

ACTION: Notice of submission for OMB review, comment request.

SUMMARY: The Peace Corps has submitted an information collection to the Office of Management and Budget for review under the provisions of the Paperwork Reduction Act of 1995. The forms PC 1789 Health Status Review and PC 1790 Report of Medical Exam is required under the Peace Corps Act for Volunteer application. No comments were received in response to the Peace Corps' earlier **Federal Register** Notice (July 20, 2000, Volume 65, Number 140 at page 45117). The Peace Corps is not proposing any changes to the PC 1789 or PC 1790.
