

**INTERNATIONAL TRADE COMMISSION**

[Investigation Nos. 701–TA–748–749 and 731–TA–1726–1727 (Final)]

**Float Glass Products From China and Malaysia; Scheduling of the Final Phase of Countervailing Duty and Antidumping Duty Investigations**

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission hereby gives notice of the scheduling of the final phase of antidumping and countervailing duty investigation Nos. 701–TA–748–749 and 731–TA–1726–1727 (Final) pursuant to the Tariff Act of 1930 to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of float glass products from China and Malaysia, provided for in subheadings 7005.10.80, 7005.21.10, 7005.21.20, 7005.29.18, 7005.29.25, 7006.00.40, 7007.19.00, 7007.29.00, 7008.00.00, 7009.91.50, and 7009.92.50 of the Harmonized Tariff Schedule of the United States, preliminarily determined by the Department of Commerce (“Commerce”) to be subsidized and sold at less-than-fair-value.

**DATES:** July 15, 2025.

**FOR FURTHER INFORMATION CONTACT:** Kristina Lara (202–205–3386), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for these investigations may be viewed on the Commission’s electronic docket (EDIS) at <https://edis.usitc.gov>.

**SUPPLEMENTARY INFORMATION:**

*Scope.*—For purposes of these investigations, Commerce has defined the subject merchandise as “articles of soda-lime-silica glass that are manufactured by floating a continuous strip of molten glass over a smooth bath of tin (or another liquid metal with a density greater than molten glass),

cooling the glass in an annealing lehr, and cutting it to appropriate dimensions. For purposes of the investigation, float glass products have an actual thickness of at least 2.0 mm (0.0787 inches) and an actual surface area of at least 0.37 square meters (4.0 square feet).

The country of origin of each float glass product is determined by the location where the soda-lime-silica glass is first manufactured by floating a continuous strip of molten glass over a smooth bath of tin and cooling the glass in an annealing lehr, regardless of the location of any downstream finishing or fabrication operations.

Prior to being subjected to further treatment, finishing, or fabrication, float glass products meet the requirements of Type I under ASTM–C1036 of the American Society for Testing and Materials (ASTM). Float glass products may be clear, stained, tinted, or coated with one or more materials. Examples of coated float glass products include Low-E architectural glass (*i.e.*, glass with a low emissivity coating to limit the penetration of radiant heat energy) and frameless mirrors (*i.e.*, flat glass with a silver, aluminum, or other reflective layer) such as mirror stock sheet.

Float glass products may be annealed, chemically strengthened, heat strengthened, or tempered to achieve a desired surface compression, pursuant to ASTM–C1048, ASTM–C1422/C1422M, or other similar specifications.

Float glass products include tub and shower enclosures (*i.e.*, doors and panels) made of tempered glass, which may be sold with attached or unattached hardware. In such cases, the scope covers only the tempered glass, to the exclusion of any non-glass hardware.

The only float glass product assemblies included within the scope are: (1) articles consisting of two or more sheets of float glass that are bonded together using a polymer interlayer (*i.e.*, laminated glass); (2) insulating glass units (IGUs), which consist of two or more sheets of float glass separated by a spacer material and hermetically sealed together at the edge in order to create a thermal barrier using air or one or more gases but excluding any non-float glass components (other than the spacer and insulating materials) that may be mounted within the space between sheets of float glass (*e.g.*, blinds, wrought iron cores, and camed patterned glass), as such non-float glass components are deemed outside the scope and not subject to duties; and (3) LED mirrors (*i.e.*, float glass mirrors with one or more light-emitting diodes attached to or integrated with the mirror, as well as framed float glass

mirrors with one or more light emitting diodes attached to or integrated with the mirror or the mirror frame, but without other electronic functionality such as digital or video displays or audio circuitry).

Float glass products covered by the scope may meet one or more of the ASTM–C162, ASTM–C1036, ASTM–C1048, ASTM–C1172, ASTM–C1349, ASTM–C1376, ASTM–C1422/C1422M, ASTM–C1464, ASTM–C1503, ASTM–C1651, ASTM–E1300, and ASTM–E2190 specifications, definitions, and/or standards.

Float glass products may be further worked, including, but not limited to, operations such as: cutting; beveling; edging; notching; drilling; etching; bending; curving; chipping; embossing; engraving; surface grinding; or polishing; and sandblasting (*i.e.*, using high velocity air to stream abrasive particles and thereby impart a frosted aesthetic to the glass surface). A float glass product which undergoes further work remains within the scope so long as the soda-lime-silica glass originally satisfied the requirements of ASTM–C1036 Type I and was first manufactured in a subject country, regardless of where it is further worked.

Excluded from the scope are: (1) wired glass (*i.e.*, glass with a layer of wire mesh embedded within); (2) patterned flat glass (*i.e.*, rolled glass with a pattern impressed on one or both sides) meeting the requirements of Type II under ASTM–C1036, including greenhouse glass and patterned solar glass (*i.e.*, photovoltaic glass with a textured surface); (3) safety glazing materials for vehicles certified to American National Standards Institute (ANSI) Standard Z26.1; (4) vacuum insulating glass (VIG) units, which consist of two or more sheets of float glass separated by a spacer material, with at least one hermetically sealed compartment that uses a gas-free vacuum as a thermal barrier; (5) framed mirrors without any LEDs integrated with the mirror or the mirror frame; (6) unframed “over-the-door” mirrors that are ready for use as imported without undergoing after importation any processing, finishing, or fabrication; and (7) heat-strengthened washing machine lid glass with an actual surface area less than 6.0 square feet (0.56 square meters).

Also excluded from the scope of the investigation are: (1) soda-lime-silica glass containing less than 0.01 percent iron oxide by weight, annealed with a surface compression less than 3,500 pounds per square inch (PSI), having a transparent conductive oxide base coating (*e.g.*, tin oxide), and with an

actual thickness less than or equal to 4.0 mm (0.1575 inches) (*i.e.*, “coated solar glass”); and (2) heat treated soda-lime-silica glass with a surface compression between 3,500 and 10,000 PSI, containing two or more drilled holes, and having an actual thickness less than 2.5 mm (0.0984 inches) (*i.e.*, “clear back solar glass”). Solar glass products (also known as photovoltaic glass) are designed to facilitate the conversion of solar energy into electricity.

Also excluded are metal-camed glass products (*i.e.*, panels of glass joined together with metal banding) where the constituent glass panels would otherwise be excluded by reason of their size (*e.g.*, an actual surface area less than 0.37 square meters, or 4.0 square feet) and/or by reason of consisting of patterned flat glass (*i.e.*, rolled glass with a pattern impressed on one or both sides) meeting the requirements of Type II under ASTM-C1036.

Also excluded from the scope of the investigation are any products already covered by the scope of any extant antidumping and/or countervailing duty orders, including Aluminum Extrusions from the People’s Republic of China: Antidumping Duty Order, 76 FR 30650 (May 26, 2011), and Aluminum Extrusions from the People’s Republic of China: Countervailing Duty Order, 76 FR 30653 (May 26, 2011).’’

**Background.**—The final phase of these investigations is being scheduled pursuant to sections 705(b) and 731(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 1673d(b)), as a result of affirmative preliminary determinations by Commerce that certain benefits which constitute subsidies within the meaning of § 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in China and Malaysia of float glass products, and that such products are being sold in the United States at less than fair value within the meaning of § 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on November 21, 2024, by Vitro Flat Glass, LLC, Cheswick, Pennsylvania, and Vitro Meadville Flat Glass, LLC, Cochranton, Pennsylvania (“Vitro”).

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission’s Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

**Participation in the investigations and public service list.**—Persons, including industrial users of the subject merchandise and, if the merchandise is

sold at the retail level, representative consumer organizations, wishing to participate in the final phase of these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission’s rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Please note the Secretary’s Office will accept only electronic filings during this time. Filings must be made through the Commission’s Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

**Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.**—Pursuant to § 207.7(a) of the Commission’s rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

**Staff report.**—The prehearing staff report in the final phase of these investigations will be placed in the nonpublic record on November 10, 2025, and a public version will be issued thereafter, pursuant to § 207.22 of the Commission’s rules.

**Hearing.**—The Commission will hold a hearing in connection with the final phase of these investigations beginning at 9:30 a.m. on November 25, 2025. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission on or before November 19, 2025. Any requests to appear as a witness via videoconference must be included with your request to appear. Requests to appear via videoconference must include a statement explaining why the witness cannot appear in

person; the Chairman, or other person designated to conduct the investigation, may in their discretion for good cause shown, grant such a request. Requests to appear as remote witness due to illness or a positive COVID-19 test result may be submitted by 3 p.m. the business day prior to the hearing. Further information about participation in the hearing will be posted on the Commission’s website at <https://www.usitc.gov/calendarpad/calendar.html>.

A nonparty who has testimony that may aid the Commission’s deliberations may request permission to present a short statement at the hearing. All parties and nonparties desiring to appear at the hearing and make oral presentations should attend a prehearing conference, if deemed necessary, to be held at 9:30 a.m. on November 21, 2025. Parties shall file and serve written testimony and presentation slides in connection with their presentation at the hearing by no later than noon on November 20, 2025. Oral testimony and written materials to be submitted at the public hearing are governed by sections 201.6(b)(2), 201.13(f), and 207.24 of the Commission’s rules. Parties must submit any request to present a portion of their hearing testimony *in camera* no later than 7 business days prior to the date of the hearing.

**Written submissions.**—Each party who is an interested party shall submit a prehearing brief to the Commission. Prehearing briefs must conform with the provisions of § 207.23 of the Commission’s rules; the deadline for filing is November 18, 2025. Parties shall also file written testimony in connection with their presentation at the hearing, and posthearing briefs, which must conform with the provisions of § 207.25 of the Commission’s rules. The deadline for filing posthearing briefs is December 2, 2025. In addition, any person who has not entered an appearance as a party to the investigations may submit a written statement of information pertinent to the subject of the investigations, including statements of support or opposition to the petition, on or before December 2, 2025. On December 15, 2025, the Commission will make available to parties all information on which they have not had an opportunity to comment. Parties may submit final comments on this information on or before December 18, 2025, but such final comments must not contain new factual information and must otherwise comply with § 207.30 of the Commission’s rules. All written submissions must conform with the provisions of § 201.8 of the

Commission's rules; any submissions that contain BPI must also conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at [https://www.usitc.gov/documents/handbook\\_on\\_filing\\_procedures.pdf](https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf), elaborates upon the Commission's procedures with respect to filings.

Additional written submissions to the Commission, including requests pursuant to § 201.12 of the Commission's rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with §§ 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

**Authority:** These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.21 of the Commission's rules.

By order of the Commission.

Issued: August 11, 2025.

**Lisa Barton,**

*Secretary to the Commission.*

BILLING CODE 7020–02–P

## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–752 and 731–TA–1730 (Final)]

### Active Anode Material From China; Scheduling of the Final Phase of Countervailing Duty and Antidumping Duty Investigations

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission hereby gives notice of the scheduling of the final phase of antidumping and countervailing duty investigation Nos. 701–TA–752 and 731–TA–1730 (Final) pursuant to the Tariff Act of 1930 to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by

reason of imports of active anode material from China, provided for in subheadings 2504.10.10, 2504.10.50, 3801.10.50, and 3801.90.00 of the Harmonized Tariff Schedule of the United States, preliminarily determined by the Department of Commerce (“Commerce”) to be subsidized and sold at less-than-fair-value.

**DATES:** July 22, 2025.

#### FOR FURTHER INFORMATION CONTACT:

Calvin Chang ((202) 205–3062), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for these investigations may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

#### SUPPLEMENTARY INFORMATION:

**Scope.**—For purposes of these investigations, Commerce has defined the subject merchandise as active anode material, which is an anode grade graphite material with a graphite minimum purity content of 90 percent carbon by weight, whether containing synthetic graphite, natural graphite, or a blend of synthetic and natural graphite; with or without coating. Subject merchandise may be in the form of powder, dry, liquid, or block form and is covered irrespective of the form in which it enters. Subject merchandise typically has a maximum size of 80 microns when in powder form. Subject merchandise has an energy density of 330 milliamp hours per gram or greater and a degree of graphitization of 80 percent or greater, where graphitization refers to the extent of the graphite crystal structure.

Subject merchandise is covered regardless of whether it is mixed with silicon based active materials, e.g., silicon-oxide (SiOx), silicon-carbon (SiC), or silicon, or additives such as carbon black or carbon nanotubes. Subject merchandise is covered regardless of the combination of compounds that comprise the graphite material. Subject merchandise is covered regardless of whether it is imported independently, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode. Only

the anode grade graphite material is covered when entered as part of a mixture with silicon based active materials, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode.

**Background.**—The final phase of these investigations is being scheduled pursuant to sections 705(b) and 731(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 1673d(b)), as a result of affirmative preliminary determinations by Commerce that certain benefits which constitute subsidies within the meaning of § 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in China of active anode material, and that such products are being sold in the United States at less than fair value within the meaning of § 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on December 18, 2024, by the American Active Anode Material Producers, the members of which are Anovion Technologies, Sanborn, New York; Syrah Technologies LLC, Vidalia, Louisiana; NOVONIX Anode Materials LLC, Chattanooga, Tennessee; Epsilon Advanced Materials, Leland, North Carolina; and SKI US, Inc., Marietta, Georgia.

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

**Participation in the investigations and public service list.**—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the final phase of these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Please note the Secretary's Office will accept only electronic filings during this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, <https://>
