

year, it must specify the anticipated remaining unused amount to the Secretary, who reduces the institution's allocation accordingly.

The changes to the version of the FISAP update the deadline and award year references, incorporate 2 new questions on the FSEOG and FWS programs. Additionally, this version of the FISAP provides clarification of the information that must be reported for the Perkins loan program now that there are no new loans being made due to the expiration of the program.

SUPPLEMENTARY INFORMATION:

Title: FERC-915, Public Utility Market-Based Rate Authorization Holders—Records Retention Requirements.

OMB Control No. 1902-0250.

Type of Request: Three-year extension of the FERC-915 information collection requirements with no changes to the current record retention requirements.

Abstract: In accordance with the Federal Power Act, the Department of Energy Organization Act (DOE Act), and the Energy Policy Act of 2005 (EPAct 2005), the Commission regulates the transmission and wholesale sales of electricity in interstate commerce, monitors and investigates energy markets, uses civil penalties and other means against energy organizations and individuals who violate FERC rules in the energy markets, administers accounting and financial reporting regulations, and oversees conduct of regulated companies.

The Commission imposes the FERC-915 record retention requirements, in 18 CFR 35.41(d), on applicable sellers to retain, for a period of five years, all data and information upon which they bill the prices charged for “electric energy or electric energy products it sold pursuant to Seller’s market-based rate tariff, and the prices it reported for use in price indices.”

The record retention period of five years is necessary due to the importance of records related to any investigation of possible wrongdoing and related to assuring compliance with the codes of conduct and the integrity of the market. The requirement is necessary to ensure consistency with the rule prohibiting market manipulation (adopted in Order No. 670) and the generally applicable five-year statute of limitations where the Commission seeks civil penalties for violations of the anti-manipulation rules or other rules, regulations, or orders to which the price data may be relevant.

Type of Respondent: Public Utility Market-Based Rate Authorization Holders.

Estimate of Annual Burden:¹ The Commission estimates the annual public reporting burden and cost² (rounded) for the information collection as follows:

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 CFR 1320.3.

² The estimated hourly cost (for wages plus benefits) provided in this section are based on the figures posted by the Bureau of Labor Statistics (BLS) for the Utilities section available at https://www.bls.gov/oes/current/naics2_22.htm and benefits information (for December 2017, issued March 20, 2018, at <https://www.bls.gov/news.release/eecc.nro.htm>). The hourly estimates for salary plus benefits are: File Clerk (Occupation code: 43-4071), \$33.39 an hour. We are rounding the hourly cost to \$33.00.
