

Respondents/Affected Entities:
Petroleum Refineries.

Number of Respondents: 18.

Frequency of Response:

Semiannually.

Estimated Total Annual Hour Burden:
2,142.

Estimated Total Annual Cost:
\$1,873,880, which includes \$197,720 in labor costs, no capital/startup costs, and \$1,676,160 in operating and maintenance (O&M) costs.

Changes in the Estimates: There is a decrease in the labor hours and cost in this ICR compared to the previous ICR. Consultations with the Office of Air Quality Planning and Standards (OAQPS) and trade associations revealed that there are approximately eighteen sources subject to the rule, with no new facilities expected to be constructed over the next three years of this ICR. Because there are no new sources with reporting requirements, no capital/startup costs are incurred. The only cost that is incurred is for the O&M of the monitoring equipment.

Dated: December 20, 2011.

John Moses,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2011-0224; FRL-9509-6]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Calciners and Dryers in Mineral Industries (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted, below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 26, 2012.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2011-0224, to (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA

Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2822IT, 1200 Pennsylvania Avenue NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0224, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is

restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NSPS for Calciners and Dryers in Mineral Industries (Renewal).

ICR Numbers: EPA ICR Number 0746.08, OMB Control Number 2060-0251.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15, and are identified on the form and/or instrument, if applicable.

Abstract: The New Source Performance Standards (NSPS) for Calciners and Dryers in Mineral Industries (40 CFR part 60, subpart UUU) were proposed on April 23, 1986 and promulgated on September 28, 1992.

The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes or additions to the General Provisions specified at 40 CFR part 60, subpart UUU.

These standards apply to new, modified, and reconstructed calciners and dryers at mineral processing plants that process or produce any of the following minerals and their concentrates, or any mixture of which the majority is any of the following minerals or a combination of these minerals: Alumina, ball clay, bentonite, diatomite, feldspar, fire clay, fuller's earth, gypsum, industrial sand, kaolin, lightweight aggregate, magnesium compounds, perlite, roofing granules, talc, titanium dioxide, and vermiculite. Particulate matter is the pollutant regulated under this subpart. Feed and product conveyors are not considered part of the affected facility. Facilities subject to NSPS subpart LL, Metallic Mineral Processing Plants, are not subject to this standard. There are additional processes and process units at mineral processing plants listed at section 60.730(b), which are not subject to the provisions of this subpart.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart UUU, as authorized in sections 112 and 114(a) of

the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 19 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Calciners and dryers at mineral processing plants.

Estimated Number of Respondents: 334.

Frequency of Response: Occasionally, semiannually and annually.

Estimated Total Annual Hour Burden: 6,434.

Estimated Total Annual Cost: \$724,410, which includes \$615,860 in labor costs, no capital startup costs; and \$108,550 in operating and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden hours as currently identified in the OMB Inventory of Approved Burdens. The change was due to the fact that there are no new respondents. There is, however, an increase in the estimated labor cost. The increase is not due to any program changes. The change is due to the use of the most updated labor rates.

There is a change in the capital/startup costs vs. operation and maintenance (O&M) costs, which could be attributed to the fact that no capital/startup costs are incurred because there are no new sources. The only cost that is incurred is for the O&M of the monitoring equipment.

Dated: December 20, 2011.

John Moses,

Director, Collection Strategies Division.

Please note that the EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov as the EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: National Volatile Organic Compound Emission Standards for Architectural Coatings (Renewal).

ICR numbers: EPA ICR No. 1750.06, OMB Control No. 2060-0393.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for the EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to
