SUPPLEMENTARY INFORMATION:

Proposed Project: "Merit Principles Survey"

As part of its purpose, MSPB is responsible for conducting studies of the Federal civil service to ensure that all Federal government agencies follow merit systems practices and avoid prohibited personnel practices. To support this research agenda, MSPB periodically conducts surveys of samples of Federal employees. To obtain insight into employees' current perspectives, MSPB requests approval to conduct additional surveys over the next three years.

The surveys will ask employees to share their perceptions of the implementation of the merit system in the workplace including topics such as agency and work unit performance, job satisfaction, compensation and rewards, fair treatment, performance management, training and development, and leadership.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 0.50 hours per respondent.

Respondents/Affected Entities: Participants are selected via stratified random sampling to facilitate a representative sample of Federal employees.

Estimated Number of Respondents: 80,000.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 40,000.

Dated: November 20, 2006.

Bentley M. Roberts, Jr.,
Clerk of the Board.
