Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Preliminary Results of Countervailing Duty Administrative Review and Intent To Rescind the Review, in Part; 2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that producers and/or exporters subject to this administrative review received countervailable subsidies. Interested parties are invited to comment on these preliminary results of review.

DATES: Applicable February 20, 2019.

FOR FURTHER INFORMATION CONTACT: Gene H. Calvert, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3586.

SUPPLEMENTARY INFORMATION:
Background

On February 23, 2018, Commerce initiated the administrative review of the countervailing duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells) from the People's Republic of China (China).¹ The period of review is January 1, 2016, through December 31, 2016.

On January 23, 2018, Commerce exercised its discretion to toll all deadlines affected by the duration of the closure of the Federal Government from January 20 through January 22, 2018.² As a result, all deadlines in this segment of the proceeding were, at that time, extended by three days.

In addition, Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ If the new deadline falls on a non-business day, in accordance with Commerce's practice, the deadline will become the next business day. The revised deadline for these preliminary results is now February 12, 2019.

Scope of the Order

The products covered by the countervailing duty order are crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels, and building integrated materials. For a complete description of the scope of this administrative review, see the Preliminary Decision Memorandum.⁴

Methodology

Commerce is conducting this administrative review in accordance

¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 83 FR 37 (February 23, 2018).

² See Memorandum, "Deadlines Affected by the Shutdown of the Federal Government," dated January 23, 2018.

³ See Memorandum to the Record from Gary Taverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, "Deadlines Affected by the Partial Shutdown of the Federal Government," dated January 28, 2019. All deadlines in this segment of the proceeding have been extended by 40 days.

⁴ See Memorandum, "Decision Memorandum for the Preliminary Results of the Countervailing Duty Administrative Review, Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, from the People's Republic of China," dated concurrently with, and hereby adopted by this notice (Preliminary Decision Memorandum).

with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we preliminarily find that there is a subsidy, (*i.e.*, a financial contribution from an authority that gives rise to a benefit to the recipient) and that the subsidy is specific.⁵ In making this preliminary determination, Commerce relied, in part, on facts otherwise available, with the application of adverse inferences.⁶ For further information, see "Use of Facts Otherwise Available and Application of Adverse Inferences" in the accompanying Preliminary Decision Memorandum. A list of topics discussed in the Preliminary Decision Memorandum is provided at Appendix I to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content.

Intent To Rescind Administrative Review, in Part

BYD (Shangluo) Industrial Co., Ltd. (BYD Shangluo) timely filed a no-shipments certification.⁷ Because no evidence on the record contradicts this certification, we preliminarily intend to rescind this administrative review with regard to BYD Shangluo. A final decision on whether to rescind the review with respect to BYD Shangluo will be made in the final results of this review.

Preliminary Results of Review

We preliminarily determine the net countervailable subsidy rates for the period January 1, 2016, through December 31, 2016, are as follows:

⁵ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

⁶ See section 776(a) of the Act.

⁷ See Letter from BYD Shangluo, "Crystalline Silicon Photovoltaic Cells, Whether Or Not Assembled Into Modules, from the People's Republic of China: No Shipment Statement from BYD (Shangluo) Industrial Co., Ltd.," dated March 26, 2018.
