## NATIONAL CREDIT UNION ADMINISTRATION

### Sunshine Act: Notice of Agency Meeting

**TIME AND DATE:** 10:00 a.m., Thursday,  
June 25, 2020.

**PLACE:** Due to the COVID-19 Pandemic,  
the meeting will be open to the public  
via live webcast only. Visit the agency's  
homepage ([www.ncua.gov](http://www.ncua.gov)) and access  
the provided webcast link.

**STATUS:** This meeting will be open to the  
public.

#### MATTERS TO BE CONSIDERED:

1. Board Briefing, Minority Depository  
Institution Annual Report.
2. Board Briefing, NCUA Guaranteed  
Notes Oversight Program.
3. Request for Information, Strategies  
for Future Examination and Supervision  
Utilizing Digital Technology.
4. NCUA Rules and Regulations,  
Technical Amendments.
5. NCUA Rules and Regulations, Risk-  
Based Net Worth.

**CONTACT PERSON FOR MORE INFORMATION:**  
Gerard Poliquin, Secretary of the Board,  
Telephone: 703-518-6304.

**Gerard Poliquin,**  
Secretary of the Board.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Notice and request for  
comments.

**SUMMARY:** In accordance with the  
requirement of the Paperwork  
Reduction Act of 1995, the National  
Science Foundation (NSF) is providing  
opportunity for public comment on the  
NSF Business Systems Review Guide  
(BSR). This is the first clearance of  
Business Systems Review Guide. It  
aligns with the Uniform Guidance and  
the *NSF Major Facilities Guide* which is  
intended for use by NSF staff and by  
external proponents of major facility

projects for use in planning. The draft  
version of the NSF BSR Guide is  
available on the NSF website at: [http://www.nsf.gov/bfa/lfo/lfo\\_documents.jsp](http://www.nsf.gov/bfa/lfo/lfo_documents.jsp).  
To facilitate review, a Change Log with  
brief comment explanations of the  
changes is provided in the guide.

**DATES:** Written comments should be  
received by August 21, 2020 to be  
assured of consideration. Comments  
received after that date will be  
considered to the extent practicable.

**ADDRESSES:** Written comments  
regarding the information collection and  
requests for copies of the proposed  
information collection request should be  
addressed to Suzanne Plimpton, Reports  
Clearance Officer, National Science  
Foundation, 4201 Wilson Blvd., Rm.  
1265, Arlington, VA 22230, or by email  
to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

**FOR FURTHER INFORMATION CONTACT:**  
Suzanne Plimpton on (703) 292-7556 or  
send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

Individuals who use a  
telecommunications device for the deaf  
(TDD) may call the Federal Information  
Relay Service (FIRS) at 1-800-877-  
8339, which is accessible 24 hours a  
day, 7 days a week, 365 days a year  
(including Federal holidays).

#### SUPPLEMENTARY INFORMATION:

**Comments:** In addition to the type of  
comments identified above, comments  
are also invited on: (a) Whether the  
proposed collection of information is  
necessary for the proper performance of  
the functions of the Agency, including  
whether the information shall have  
practical utility; (b) the accuracy of the  
Agency's estimate of the burden of the  
proposed collection of information; (c)  
ways to enhance the quality, utility, and  
clarity of the information on  
respondents, including through the use  
of automated collection techniques or  
other forms of information technology;  
and (d) ways to minimize the burden of  
the collection of information on  
respondents, including through the use  
of automated collection techniques or  
other forms of information technology.  
After obtaining and considering public  
comment, NSF will prepare the  
submission requesting OMB clearance  
of this collection for no longer than 3  
years.

**Title of Collection:** Business Systems  
Review Guide.

**OMB Approval Number:** 3145-NEW.

**Expiration Date of Approval:** Not  
applicable.

**Type of Request:** Intent to seek  
approval to extend with revision an  
information collection for three years.

**Proposed Project:** The National  
Science Foundation Act of 1950 (Pub. L.

81-507) set forth NSF's mission and  
purpose:

"To promote the progress of science;  
to advance the national health,  
prosperity, and welfare; to secure the  
national defense. \* \* \*"

The Act authorized and directed NSF  
to initiate and support:

- ☐ Basic scientific research and  
research fundamental to the engineering  
process;
- ☐ Programs to strengthen scientific  
and engineering research potential;
- ☐ Science and engineering education  
programs at all levels and in all the  
various fields of science and  
engineering;
- ☐ Programs that provide a source of  
information for policy formulation; and
- ☐ Other activities to promote these  
ends.

Among Federal agencies, NSF is a  
leader in providing the academic  
community with advanced  
instrumentation needed to conduct  
state-of-the-art research and to educate  
the next generation of scientists,  
engineers and technical workers. The  
knowledge generated by these tools  
sustains U.S. leadership in science and  
engineering (S&E) to drive the U.S.  
economy and secure the future. NSF's  
responsibility is to ensure that the  
research and education communities  
have access to these resources, and to  
provide the support needed to utilize  
them optimally, and implement timely  
upgrades.

The scale of advanced  
instrumentation ranges from small  
research instruments to shared  
resources or facilities that can be used  
by entire communities. The demand for  
such instrumentation is very high, and  
is growing rapidly, along with the pace  
of discovery. For major facilities and  
shared infrastructure, the need is  
particularly high. This trend is expected  
to accelerate in the future as increasing  
numbers of researchers and educators  
rely on such large facilities,  
instruments, and databases to provide  
the reach to make the next intellectual  
leaps.

NSF currently provides support for  
facility construction from two accounts:  
The Major Research Equipment and  
Facility Construction (MREFC) account,  
and the Research and Related Activities  
(R&RA) account. The MREFC account,  
established in FY 1995, is a separate  
budget line item that provides an  
agency-wide mechanism, permitting  
directorates to undertake large facility  
projects that exceed 10% of the  
Directorate's annual budget; or roughly  
\$70M or greater. Smaller projects  
continue to be supported from the  
R&RA Account.
