

section 70913(b) of IJIA, this report must:

(1) Identify all domestic content procurement preferences applicable to DOI's Federal financial assistance.

DOI Summary: In reviewing the DOI programs, no DOI programs were identified that are subject to domestic content procurement preferences, as defined in section 70912(2).

(2) Assess the applicability of domestic content procurement preference requirements including:

(A) Section 313 of title 23, United States Code;

(B) section 5323(j) of title 49, United States Code;

(C) section 22905(a) of title 49, United States Code;

(D) section 50101 of title 49, United States Code;

(E) section 603 of the Federal Water Pollution Control Act (33 U.S.C. 1388);

(F) section 1452(a)(4) of the Safe Drinking Water Act (42 U.S.C. 300j–12(a)(4));

(G) section 5035 of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3 3914);

(H) any domestic content procurement preference included in an appropriations Act; and

(I) any other domestic content procurement preference in Federal law (including regulations).

DOI Summary: In reviewing the DOI programs, no DOI programs were identified that are subject to additional domestic content procurement requirements of the above legislation, Appropriations Act, or other domestic content procurement preference in Federal law.

(3) Provide details on any applicable domestic content procurement preference requirement, including the purpose, scope, applicability, and any exceptions and waivers issued under the requirement.

DOI Summary: Given the above responses, the DOI has no further details to provide at this time.

(4) Include a description of the type of infrastructure projects that receive funding under the program, including information relating to:

(A) The number of entities that are participating in the program;

(B) the amount of Federal funds made available for the program for each fiscal year; and

(C) any other information the head of the Federal agency determines to be relevant.

DOI Summary: The DOI reviewed each of its 287 financial assistance programs to identify Federal financial assistance programs for infrastructure. The analysis found in the link above

identifies the DOI's initial assessment of financial assistance programs for infrastructure ("Infrastructure Programs"). The types of infrastructure projects pursued under these programs are identified within question 4(c), column K of the analysis.

(5) Section 70913(c) of IJIA requires that the report include a list of "Deficient Programs" which identifies DOI's financial assistance programs for infrastructure (as defined in section 70912(5) of IJIA) for which a domestic content procurement preference requirement does not apply in a manner consistent with section 70914 of IJIA or is subject to a waiver of general applicability not limited to the use of specific products for use in a specific project. Section 70914 requires that all the iron, steel, manufactured products, and construction materials used in projects receiving DOI financial assistance for infrastructure be produced in the United States unless DOI provides a waiver of the requirement or application of the requirement would be inconsistent with the United States' obligations under international agreements.

DOI Summary: As noted above and based on information known at the time of this assessment, all included DOI Infrastructure Programs constitute "Deficient Programs" as defined in the Build America, Buy America Act.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On January 11, 2022, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of Pennsylvania in the lawsuit entitled *United States and Pennsylvania Department of Environmental Protection v. West Penn Power Company* (West Penn), Civil Action No. 2:22–cv–00051–NR.

This case relates to alleged violations of monthly effluent limitations contained in National Pollution Discharge Elimination System (NPDES) permits issued to West Penn by the Pennsylvania Department of Environmental Protection (PADEP) and related to boron levels in leachate

discharges from two closed coal ash landfills in Western Pennsylvania. The Mingo Landfill is associated with the retired, coal-fired Mitchell Power Plant in Union Township, Washington County, and the Springdale Landfill is associated with the retired coal-fired Springdale Power Plant in Frazer Township, Allegheny County. The case involves claims for civil penalties and injunctive relief under the Clean Water Act, 33 U.S.C. 1251 *et seq.*, as well as a related count under the Pennsylvania Clean Streams Law, 35 P. S. §§ 691.1–691.801 for the alleged violations at the Mingo Landfill. The proposed settlement embodied in the lodged Consent Decree requires West Penn to install a new gravity pipeline from the Springdale Landfill to a new outfall location in the Allegheny River, and to operate a recently installed gravity pipeline from the Mingo Landfill to Peters Creek. Both new outfalls will require West Penn to operate the pipelines in compliance with newly issued NPDES permits. West Penn is also required to pay civil penalties of \$305,000 to the United States and \$305,000 to PADEP.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States et al. v. West Penn Power*, D.J. Ref. No. 90–5–1–11894. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
