

Estimated Time per Response: 1–22 hours.

Frequency of Response: On occasion and annual reporting requirements, recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154, 214, 218–220, 221(c), 254, and 303(r).

Total Annual Burden: 41,070 hours.

Total Annual Cost: No Cost. Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: No assurance of confidentiality has been given regarding the information. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the FCC's rules.

Needs and Uses: In order to determine which carriers are entitled to universal service support, all rate-of-return regulated (rate-of-return) incumbent local exchange carriers (LECs) must provide the National Exchange Carrier Association (NECA) with the loop cost and loop count data required by section 54.1305 for each of its study areas and, if applicable, for each wire center as that term is defined in 47 CFR part 54. See 47 CFR 54.1305 and 54.5. The loop cost and loop count information is to be filed annually with NECA by July 31st of each year, and may be updated occasionally pursuant to section 54.1306. See 47 CFR 54.1306. Pursuant to section 54.1307, the information filed on July 31st of each year will be used to calculate universal service support for each study area and is filed by NECA with the Commission on October 1 of each year. See 47 CFR 54.1307. An incumbent LEC is defined as a carrier that meets the definition of "incumbent local exchange carrier" in section 51.5 of the Commission's rules. See 47 CFR 51.5.

In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. *Connect America Fund et al.*, WC Docket No. 10–90 et al., Report and Order, Order and Order on Reconsideration and Further Notice of Proposed Rulemaking, 31 FCC Rcd 3087 (2016) (*Rate-of-Return Reform Order and Further Notice*). The *Rate-of-Return Reform Order* replaces the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF–BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF–BLS also supports consumer broadband-

only loops. FCC Forms 507, 508, and 509 include additional line counts, forecasted cost and revenues, and actual cost and revenue data associated with consumer broadband-only loops necessary for the calculation of CAF–BLS. We propose to move the requirements associated with FCC Form 507, FCC Form 508, FCC Form 509 under OMB Control Number 3060–0986 into this collection.

The Commission therefore proposes to revise this information collection. Any increased burdens are associated with the moving of these requirements and forms into this information collection.

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer, Office of the Secretary.
