

ENVIRONMENTAL PROTECTION AGENCY**[OPP-00654A; FRL-6793-4]****Pesticides; Final Guidance for Pesticide Registrants on Disposal Instructions for Non-Antimicrobial, Residential/Household Use Pesticide Product Labels****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of availability.

SUMMARY: The Agency is announcing the availability of a Pesticide Registration Notice (PR-Notice) entitled "Disposal Instructions on Non-Antimicrobial, Residential/Household Use Pesticide Product Labels." This PR-Notice was issued by the Agency on September 7, 2001, and is identified as PR-Notice 2001-6. A draft for comment of this notice was published in the **Federal Register** of June 14, 2000 (65 FR 37383) (FRL-6553-4), with a 60-day comment period. PR-Notices are issued by the Office of Pesticide Programs (OPP) to inform pesticide registrants and other interested persons about important policies, procedures and registration-related decisions, and serve to provide guidance to pesticide registrants and OPP personnel. This particular PR-Notice provides guidance to the registrant concerning disposal instructions for both empty and partly filled containers of non-antimicrobial, residential/household use pesticide product labels. The revised instructions should decrease the number of accidental exposures to sanitation workers and to the environment and allow state/local governments greater latitude in carrying out their responsibilities for product disposal and waste management programs.

SUPPLEMENTARY INFORMATION:**I. Does this Action Apply to Me?**

This action is directed to the public in general. Although this action may be of particular interest to those persons who are required to register, regulate, or label pesticides, people who manage or regulate household hazardous waste facilities or collection events may also be interested in this notice. Since other entities may also be interested, the

Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. What Guidance Does this PR Notice Provide?

This PR-Notice provides guidance to the registrant concerning the development of disposal instructions for non-antimicrobial, residential/household use pesticide product labels. EPA is providing instructions that direct consumers to call their local solid waste authorities for specific disposal instructions for partly filled containers, rather than directing them to wrap the container in paper and dispose of it in the trash. The notice also informs registrants of what EPA considers to be a residential/household use pesticide; provides criteria to be met by any toll-free phone number provided within the disposal instructions; and addresses how to develop recycling statements and why providing a rationale to consumers for following the disposal instructions is useful. The new instructions provide state and local governments greater latitude in carrying out their responsibilities for product disposal and waste management programs and decreases the potential for accidental pesticide exposures to sanitation workers and to the environment.

III. Do PR-Notices Contain Binding Requirements?

The PR-Notice discussed in this notice is intended to provide guidance to EPA personnel and decision-makers and to pesticide registrants. While the requirements in the statutes and Agency regulations are binding on EPA and the applicants, this PR-Notice is not binding on either EPA or pesticide registrants, and EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide registrants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide or situation.
