BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Intelligence Agency Advisory Board Closed Meeting

AGENCY: Department of Defense, Defense Intelligence Agency.

ACTION: Notice.

SUMMARY: Pursuant to the provisions of Subsection (d) of Section 10 of Pub. L. 92-463, as amended by Section 5 of Pub. L. 94-409, notice is hereby given that a closed meeting of the DIA Advisory Board has been scheduled as follows:

DATES: 23-24 June 2004 (8:30 a.m. to 5 p.m.)

ADDRESSES: ANSER Conference Center, 2900 S. Quincy Street, Suite 800, Arlington, VA

FOR FURTHER INFORMATION CONTACT: Ms. Jane McGehee, Program Manager/Executive Secretary, DIA Advisory Board, Washington, DC., 20340-1328 (703) 693-9567.

SUPPLEMENTARY INFORMATION: The entire meeting is devoted to the discussion of classified information as defined in Section 552b(c)(1), Title 5 of the U.S. Code, and therefore will be closed to the public. The Board will receive briefings and discuss several current critical intelligence issues in order to advise the Director, DIA.

Dated: June 21, 2004.

L. M. Bynum,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Supplemental Environmental Impact Statement/ Supplemental Environmental Impact Report for the Pacific Energy Crude Oil Marine Terminal on Pier 400 in the Port of Los Angeles, Los Angeles County, California

AGENCY: U.S. Army Corps of Engineers, Los Angeles District, DoD.

ACTION: Notice of intent.

SUMMARY: USACE and LAHD previously prepared and certified the *Deep Draft Navigation Improvements, Los Angeles and Long Beach Harbors, San Pedro Bay, California Final SEIS/SEIR* (Deep Draft EIS/EIR) that in part analyzed the impacts of creation of Pier 400 from dredge material and the subsequent construction and operation of a new liquid bulk terminal on the new Pier 400 land (USACE and LAHD, 1992). LAHD approved the Deep Draft SEIS/SEIR in its action of November 18, 1992; and the USACE issued a Record of Decision (ROD) on January 21, 1994. The SEIS/SEIR being prepared for this specific action is a supplement to the Deep Draft EIS/EIR. The landside developments will include (1) development and construction of the liquid bulk marine terminal facilities on Pier 400, (2) construction of product storage terminals on Terminal Island and/or other suitable sites, (3) construction of a 42-inch pipeline to connect the Marine Terminal to the Storage Terminals, (4) construction of two 36-inch pipelines from the Storage Terminals to link with an existing 36-inch pipeline running between the ExxonMobil Southwest Terminal on Terminal Island and the Ultramar Liquid Bulk Terminal on Mormon Island (one of the 36-inch pipelines would deliver product to the Exxon/Mobil Southwest Terminal and the other would deliver product to the Ultramar Liquid Bulk Terminal), and (5) construction of a 24-inch pipeline from the Ultramar Terminal to the Ultramar/Valero Refinery located north of the Terminal Island Freeway and south of Anaheim Street.

The primary Federal concern is the dredging and discharging of materials within waters of the U.S. and potential impacts on the human environment. Under section 404 of the Clean Water Act, the Corps is authorized to approve discharges of dredged or fill material into waters of the U.S. Under section 10 of the Rivers and Harbors Act, the Corps

may authorize activities that could affect navigable waters. The Corps is preparing an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act (NEPA) prior to deciding whether or not to authorize the Proposed Action. The Corps may ultimately make a determination to permit or deny the Proposed Action, or permit or deny alternatives to the Proposed Action.

Pursuant to the California Environmental Quality Act (CEQA), the Port will serve as Lead Agency for the preparation of an Environmental Impact Report (EIR) for its consideration of development approvals within its jurisdiction. The Corps and the Port have agreed to jointly prepare a Draft SEIS/SEIR in order to optimize efficiency and avoid duplication. The Draft SEIS/SEIR is intended to be sufficient in scope to address Federal, State, and local requirements and environmental issues concerning the proposed activities and permit approvals.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and Draft SEIS/SEIR can be answered by Mr. Joshua Burnam, Corps Project Manager, at 213-452-3294. Comments regarding the scope of the Draft SEIS/SEIR shall be addressed to: U.S. Army Corps of Engineers, Los Angeles District, Regulatory Branch, Attn: File Number 2004-00917-JLB, P.O. Box 532711, Los Angeles, California 90053-2325.

SUPPLEMENTARY INFORMATION:

1. *Project Site and Background Information.* The proposed marine terminal portion of this project would be located on the western side (Face C) and southern side (Face D) of Pier 400 in the Port's Planning Area 9. The currently identified new storage terminal sites would be located on Terminal Island and would also be in the Port's Planning Area 9. The proposed terminal would require approximately 4 million barrels of storage capacity. Five sites within the port (described below) with a total storage capacity of approximately 3.5 million barrels have already been identified. The total storage capacity will be limited to 3.5 million barrels pending identification of other sites in or outside the Port that could accommodate the project, in its entirety or in part, or accommodate the remaining needed capacity (approximately 500,000 barrels). Pacific Energy's anchor customer plans to use 1.0 million barrels of capacity and Pacific Energy would use the other 3.0 million barrels to serve other customers.
