

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FEROnlineSupport@ferc.gov](mailto:FEROnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

### Federal Energy Regulatory Commission

[Docket No. OR08-11-000]

#### **Nexen Marketing U.S.A. Inc. Complainant, v. Enbridge Pipelines (North Dakota) LLC, Respondent; Notice of Complaint**

June 20, 2008.

Take notice that on June 18, 2008, Nexen Marketing U.S.A. Inc. (Nexen) filed a formal complaint against Enbridge Pipelines (North Dakota) LLC (Enbridge North Dakota), pursuant to Rule 206 of the Rules of Practice and Procedures of the Commission's regulations, 18 CFR 385.206. Nexen alleges that Enbridge North Dakota has unfairly and unreasonably imposed penalties that substantially reduce the quantity of crude oil that Nexen is able to ship on its pipeline. Nexen alleges that a force majeure event occurred and Enbridge North Dakota's interpretation and application of the force majeure

provision of its tariff was unjust and unreasonable and violated its obligation under the Interstate Commerce Act to treat shippers in a just, reasonable and nondiscriminatory manner.

Nexen certifies that copies of the complaint were served on the issuing officer of Enbridge North Dakota's tariff.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of Respondent's answer, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FEROnlineSupport@ferc.gov](mailto:FEROnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5 p.m. Eastern Time on July 18, 2008.

**Kimberly D. Bose,**

*Secretary.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP08-89-000]

#### **Williston Basin Interstate Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Sheyenne Expansion Project**

June 20, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) of the Sheyenne Expansion Project proposed by Williston Basin Interstate Pipeline Company (Williston Basin) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of Williston Basin's proposed Sheyenne Expansion Project (Project), consisting of the new Steele Compressor Station in Kidder County, North Dakota; installation of additional compression at the existing Bismarck Compressor Station in Burleigh County, North Dakota; minor modifications to the existing Cleveland Compressor Station in Stutsman County, North Dakota; and construction and operation of approximately 6,400 feet of 8-inch-diameter pipeline lateral and metering facilities to connect to the proposed Tharaldson Ethanol Plant in Cass County, North Dakota.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to federal, state, and local agencies, interested individuals, newspapers, libraries, and parties to this proceeding. Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below.

You can make a difference by providing us with your specific comments or concerns about the Project. Your comments should focus on the
