FEDERAL TRADE COMMISSION**16 CFR Part 4****Freedom of Information Act;
Correction****AGENCY:** Federal Trade Commission.**ACTION:** Final rule; correction.

SUMMARY: The Federal Trade Commission published a final rule on February 28, 2013 revising its Rules of Practice governing access to agency records. In one of its amendatory instructions, the final rule mentioned a paragraph that was not being affected. This document makes a technical correction to the amendatory instruction

so that it accurately reflects the amendments carried out.

DATES: Effective March 18, 2013.

FOR FURTHER INFORMATION CONTACT: G. Richard Gold, Attorney, Office of the General Counsel, Federal Trade Commission, 600 Pennsylvania Avenue NW., Washington, DC 20580, (202) 326-3355.

SUPPLEMENTARY INFORMATION: An amendatory instruction in our final rule entitled “Freedom of Information Act” published February 28, 2013 (78 FR 13472) erroneously included a paragraph that was not affected. In the amendments to § 4.9 of the Commission’s Rules of Practice, instruction 2 included paragraph (b)(9) in its revisions. That paragraph was not revised by the rule. Therefore, we issue the following correction to the February 28 final rule:

■ 1. In the **Federal Register** of Thursday, February 28, 2013, in FR Doc. 2013-04479, on page 13474, in the first column, amendatory instruction 2 is correctly revised to read as follows: “2. Amend § 4.9 by revising paragraphs (a)(3), (a)(4)(i), (a)(4)(iii), (b)(3)(iii), (b)(10)(xiv) and (xv), and by adding (b)(10)(xvi) to read as follows:”

SUPPLEMENTARY INFORMATION:

I. Why is EPA publishing this final rule?

On November 7, 2012, EPA published in the **Federal Register** a Direct Final rule entitled *National Oil and Hazardous Substances Pollution Contingency Plan; Revision to Increase Public Availability of the Administrative Record File* (77 FR 66729) (hereafter the Direct Final rule). This Direct Final rule added language to 40 CFR 300.805(c) of the NCP to broaden the technology, to include computer telecommunications or other electronic means, that the lead agency is permitted to use to make the administrative record file available to the public. At the same time, EPA also published a parallel Proposed rule (77 FR 66783) that requested comment on the same change to the NCP. We stated in that Direct Final rule that if we received adverse comment on the amendment by December 7, 2012, the affected amendment would not take effect and we would publish a timely withdrawal in the **Federal Register** of the amendment. We received one adverse comment and as a result withdrew the amendment on January 22, 2013 (78 FR 4333). EPA is publishing today’s Final rule to address the adverse comment received on the

amendment listed above and to finalize this amendment.

II. Background

A. What does this amendment do?

In the November 7, 2012, Direct Final rule, 40 CFR 300.805(c)—“Location of the Administrative Record File” in Subpart I—“Administrative Record for Selection of Response Action” of the National Oil and Hazardous Substances Pollution Contingency Plan, was revised to acknowledge advancements in technologies used to manage and convey information to the public. Specifically, this revision to the NCP added language to broaden the technology, to include computer telecommunications or other electronic means, that the lead agency is permitted to use to make the administrative record file available to the public regarding documents that form the basis for the selection of a response action. This amendment to the NCP does not limit the lead agency’s ability to make the administrative record file available to the public in traditional forms such as paper and microform. Based on the preferences of the community and the lead agency’s assessment of the site-specific situation, the lead agency will determine whether to provide: (1) Traditional forms (e.g. paper copies; microform) (2) electronic resources, or (3) both traditional forms and electronic resources. The lead agency should assess the capacity and resources of the public to utilize and maintain an electronic- or computer telecommunications-based repository to make a decision on which approach suits a specific site.

B. What comment did EPA receive and how is it addressed?

While three comments were submitted in a timely manner, only one of them is considered to be substantive. This comment, submitted anonymously, stated that “This modification to the current methods of conveying information to the general public is prudent and likely to increase public awareness of activities relating to the National Contingency Plan.” However, the commenter was “* * * curious as to how the ‘preferences of the community and the lead agency’s assessment of the site-specific situation’ will be determined.”, as “Within any single community, there is probably going to be a range of capabilities and preferences regarding the delivery of a record file.” The commenter went on to explain “In determining community preference, the Agency should be cautious, again, of allowing the
