SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Trade Survey (ATS) provides a sound statistical basis for the formation of policy by other government agencies. It provides continuing and timely national statistics on wholesale trade augmenting the period between economic censuses, and is a continuation of similar wholesale trade surveys conducted each year since 1978. The data that the Bureau collects with the ATS: annual sales, end-of-year inventories, and purchases are applicable to a variety of public and business needs. The Census Bureau collects these annual data from firms reporting in the Monthly Wholesale Trade Survey (MWTS) as well as an additional sample of firms selected specifically for the annual survey. The annual collection is mandatory, whereas response to the monthly is voluntary.

Estimates developed in the ATS are used to benchmark the monthly sales and inventories series. The firms canvassed in this survey are not required to maintain any additional records since carefully prepared estimates are acceptable if book figures are not available.

II. Method of Collection

We will collect this information by mail, FAX and telephone follow-up.
