National Institute of Diabetes and Digestive and Kidney Diseases; Notice of Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Diabetes and Digestive and Kidney Diseases Special Emphasis Panel; NIDDK U34 Planning Cooperative Agreement Review Meeting.

Date: February 4, 2025.

Time: 2:00 p.m. to 3:30 p.m.

Agenda: To review and evaluate grant applications.

Address: National Institutes of Health, NIDDK Democracy II, Suite 7000A 6707 Democracy Boulevard, Bethesda, MD 20892.

Meeting Format: Virtual Meeting.

Contact Person: Nisan Bhattacharyya, Ph.D., Scientific Review Officer, National Institute of Diabetes and Digestive and Kidney, National Institute of Health, 6701 Democracy Boulevard, Suite 668 Bethesda, MD 20892, 301-451-2405, nisan.bhattacharyya@nih.gov.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-0166.

Project: Government Performance and Results Act (GPRA) Client/Participant Outcomes Measure—(OMB No. 0930-0208)—Revision

SAMHSA is requesting approval for a revision of the CSAT Client-level GPRA instrument to continue the collection of performance and program monitoring data of its substance use services grant programs. Currently, the information collected from this instrument is entered and stored in SAMHSA's Performance Accountability and Reporting System (SPARS). SPARS is a real-time, performance management system that captures information on the substance use services and mental health services delivered through SAMHSA's grant programs across the United States. Continued approval of this information collection will allow SAMHSA to continue to meet Government Performance and Results Modernization Act of 2010 reporting requirements that quantify the effects and accomplishments of its discretionary grant programs, which are consistent with OMB guidance.

SAMHSA will use the data for annual performance reporting required by GPRA and comparing baseline with discharge and follow-up data. The additional information collected through this process will allow SAMHSA to: (1) report results of these performance outcomes; (2) maintain consistency with SAMHSA-specific performance domains, and (3) assess the performance of its discretionary and formula grant programs.

Currently, there are 379,037 total burden hours in the OMB-approved CSAT Client-level GPRA instrument. SAMHSA is now requesting an increase to 631,682 burden hours. The increase of 252,645 burden hours is due to the following:

- Additional time allocated for interviews, but also improved estimates
