SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-XXXX.

Title: Wireless Medical Telemetry Service (ET Docket 99-255).

Type of Review: New collection.

Respondents: Business or not for profit institutions.

Number of Respondents: 2500.

Estimated Hours Per Response: 4.

Frequency of Response:

Recordkeeping; one time reporting requirement.

Estimated Total Annual Burden: 10,000 hours.

Total Annual Cost: \$500,000.00.

Needs and Uses: The Commission adopted a Notice of Proposed Rule Making, to create a Wireless Medical Telemetry Service ("WMTS") (ET Docket No. 99-255). If the WMTS were licensed by rule, there would be no record of which frequencies are used by each facility or device. This could result in interference if multiple parties located closely together attempted to use the same frequencies. Therefore, the Commission proposes the appointment of a frequency coordinator, who will maintain a database of all WMTS equipment in operation. All parties using equipment in the WMTS would be required to coordinate/register their operating frequency and other relevant technical operating parameters with a coordinator designated by the Commission. This proposal would assist WMTS users in avoiding interference.
