Notice of Proposed New Fee Site; Federal Lands Recreation Enhancement Act, (Title VIII, Pub. L. 108-447)

AGENCY: Salmon-Challis National Forest, USDA Forest Service.

ACTION: Notice of proposed new fee site.

SUMMARY: The Salmon-Challis National Forest is proposing to charge fee at the Copper Basin Guard Station. This cabin includes a \$100/night fee and would be available for rental from June 1 to September 30. Fees are proposed based on the level of amenities and services provided, cost of operations and maintenance, and market assessment. The fee will be determined upon further analysis and public comment. An analysis of nearby rental cabins with similar amenities shows that the proposed fees are reasonable and typical of similar sites in the area. Funds from fees would be used for the continued operation and maintenance and improvements of these rental cabins.

DATES: Comments will be accepted through August 1, 2015. New fees would begin May 2016.

ADDRESSES: Charles A. Mark, Forest Supervisor, Salmon-Challis National Forest, 1206 S. Challis Street, Salmon, ID 83467.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation. People wanting reserve these cabins would need to do so through the National Recreation Reservation Service, at www.recreation.gov or by calling 1-877-444-6777 when it becomes available.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

NOAA is mentoring student interns from the Monterey Institute for International Studies to estimate the market and non-market economic values associated with non-consumptive recreation uses (e.g., whale watching, other wildlife observation, SCUBA diving, snorkeling, beach activities, surfing, wind-surfing, kite boarding, paddle boarding, etc.) in the Monterey Bay National Marine Sanctuary (MBNMS) for those accessing the MBNMS via "for hire" operation boats.

We will conduct surveys of the for hire operations that take people out for non-consumptive recreation, to obtain total use by type of activity and the spatial use by type of activity. Information will also be obtained on costs-and-earnings of the operations, knowledge, attitudes and perceptions of sanctuary management strategies and regulations, and demographic information on owner/captains and crews. Surveys will also be conducted of the passengers aboard the for hire operation boats to obtain their market and non-market economic use values for non-consumptive recreation use and how those value change with changes in natural resource attribute conditions and user characteristics. Additional information will be obtained on importance-satisfaction ratings of key natural resource attributes, facilities and services, knowledge, attitudes and perceptions of management strategies and regulations, and demographic profiles of passengers.

II. Method of Collection

For the for hire operations, a team of students will go to the operations offices and collect the information. For the passengers, surveys will be conducted at the docks after the completion of their trips. The on-site survey will obtain information on demographic profiles, annual number of trips in the MBNMS for non-consumptive recreation, and their non-market economic use value. Self-addressed, postage paid mail back questionnaires will be used for importance-satisfaction ratings, knowledge, attitudes and perceptions, and trip expenditures.
