Needs and Uses: Under 47 CFR parts 2 and 15 of FCC Rules, certain equipment must comply with FCC technical standards before it can be marketed. Equipment that operates in the licensed service requires FCC Authorization under 47 CFR parts 2 and 68. Since its 1999 *Report and Order*, ET Docket No. 98-68, the FCC has permitted private sector firms or "Telecommunications Certification Body" (TCB) to approve equipment for marketing. TCBs are accredited by FCC recognized accrediting bodies, and then designated by the FCC to act on behalf of the Commission. TCBs may be designated based on the terms of established Mutual Recognition Agreements with foreign trade partners. TCBs may accept FCC Form 731-TC filings and evaluate the equipment's compliance with FCC Rules and technical standards. TCBs submit this information to the FCC via the Internet.
