To support the basing action, the DoN will: (1) Construct and/or renovate airfield facilities and infrastructure necessary to accommodate and maintain the F-35B squadrons; (2) change personnel to accommodate squadron staffing; and (3) conduct F-35B readiness and training operations to attain and maintain proficiency in the operational employment of the F-35B and special exercise operations. The Proposed Action also includes construction and operation of a new Auxiliary Landing Field (ALF) within the Goldwater Range, to accommodate Field Carrier Landing Practice for the F-35B. The F-35B aircraft will replace 126 legacy F/A-18A/B/C/D Hornet and 56 AV-8B Harrier aircraft in the Third Marine Air Wing (3D MAW) and 4th MAW. All practical means to avoid or minimize environmental impacts resulting from implementation of the Preferred Alternative have been adopted.

Type of Review: New.

Title of Collection: Impact Evaluation of Race to the Top (RTT) and School Improvement Grants (SIG).

OMB Control Number: 1850-NEW.

Agency Form Number(s): N/A.

Frequency of Responses: Once.

Affected Public: State, Local, or Tribal Government, State Educational Agencies, Local Educational Agencies.

Total Estimated Number of Annual Responses: 591.

Total Estimated Number of Annual Burden Hours: 2,083.

Abstract: This Office of Management and Budget (OMB) package requests clearance for activities to recruit 50 states and the District of Columbia, and up to 825 schools across an estimated 170 districts for inclusion in an evaluation of Race to the Top (RTT) and School Improvement Grants (SIG). The American Recovery and Reinvestment Act contained substantial funding for systemic education reform. This included \$4.35 billion in RTT grants, which were awarded to 11 states and the District of Columbia based both on their education reform plans and their past success in creating the conditions for reform, and \$3 billion in additional funding for SIG, which is aimed at implementing one of four school turnaround models (STMs) in the lowest-performing schools. The evaluation is designed to (1) study the implementation of RTT and SIG; (2) analyze the impact of SIG-funded STMs on student outcomes using a regression discontinuity design; (3) analyze the impact of receipt of RTT funds on student outcomes using an interrupted time series design; and (4) investigate the relationship between STM turnaround models (and strategies within those models) and student outcomes in low-performing schools. No data are being collected or analyzed as part of recruitment activities. A second OMB submission will request clearance for the evaluation's data collection, analysis, and reporting activities. This future package will include data collection forms, and burden estimates of the number of respondents and hours of response time.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4468.
