

Drive (the West Oakridge Drive Site). The West Oakridge Drive Site is located to the west of Albany, approximately 3 miles northwest from the Newton Road Site. A map depicting the newly proposed West Oakridge Drive Site is provided in Appendix 1.

Sabal Trail would locate the compressor station within a 34-acre fenced area on the southern end of the site, approximately 2,000 feet south of West Oakridge Drive. The site is largely wooded with mature, planted pine, and Sabal Trail would retain at least a 100-foot-wide tree buffer around the entire station. Access to the station would be from West Oakridge Drive via an existing road on the site. Sabal Trail would also slightly modify the proposed pipeline alignment on the site to retain a 100-foot-wide tree buffer between the pipeline right-of-way and the western boundary of the site.

The EIS Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EIS on the important environmental issues. By this Notice, the Commission requests public comments on the West Oakridge Drive Site for the Albany Compressor Station. We will consider all filed comments that are suggested during the preparation of the EIS.

Our independent analysis of the issues will be presented in a draft EIS that will be placed in the public record, published, and distributed to the public for comments. We will also hold public comment meetings in the Project area and will address comments on the draft EIS in a final EIS. The final EIS will also be placed in the public record, published, and distributed to the public. To ensure your comments are considered, please carefully follow the instructions in the Public Participation section, beginning on page 2.

Consultations Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, we are using this supplemental Notice to inform the Georgia State Historic Preservation Office (SHPO) of the proposed new site,

and to solicit its view and those of other government agencies, interested Indian tribes, and the public on the Project's potential effects on historic properties.¹ We will define the project-specific Area of Potential Effects (APE) in consultation with the SHPO as the Project develops. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, meter stations, and access roads). Our EIS for the Project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

Copies of the draft EIS will be sent to the environmental mailing list for public review and comment. The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for Project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the Project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed Project.

If you would prefer to receive a paper copy of the draft EIS instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (Appendix 2).

Becoming an Intervenor

You may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An

intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the User's Guide under the "e-filing" link on the Commission's Web site.

Additional Information

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search," and enter the docket number, excluding the last three digits (*i.e.*, CP15-17). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Finally, public meetings or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

Commission Information Collection Activities (FERC-725B); Comment Request

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Comment request.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507(a)(1)(D), the Federal Energy Regulatory Commission (Commission or FERC) is submitting its information collection [FERC-725B, Mandatory Reliability Standards for Critical Infrastructure Protection] to the Office of Management and Budget (OMB) for review of the information collection requirements. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below. The Commission previously issued a Notice in the **Federal Register** (80 FR 21230, 4/17/2015) requesting public comments. The Commission received one public comment on the FERC725B. The public comment and FERC's response are provided later in this notice.

DATES: Comments on the collection of information are due by July 27, 2015.

ADDRESSES: Comments filed with OMB, identified by the OMB Control No. 1902-0248, should be sent via email to the Office of Information and Regulatory Affairs: oir_submission@omb.gov Attention: Federal Energy Regulatory Commission Desk Officer. The Desk Officer may also be reached via telephone at 202-395-0710.

A copy of the comments should also be sent to the Commission, in Docket No. IC15-6-000, by either of the following methods:

- eFiling at Commission's Web site: <http://www.ferc.gov/docs-filing/efiling.asp>.
