II. What Is the Purpose of This Document?

On June 28, 2002, Innovene (formerly BP Chemicals Inc.) petitioned the Agency to remove acetonitrile (methyl cyanide) from the list of chemicals subject to the reporting requirements of EPCRA section 313. In response to the petition to delist acetonitrile, EPA has prepared a hazard assessment for acetonitrile entitled "TRI Technical Review of Acetonitrile," which will shortly be submitted for external peer review. This notice provides the public access to EPA's "TRI Technical Review of Acetonitrile", the acetonitrile petition, related materials, peer review charge, and all associated references.

III. Public Comments

EPA is accepting comments only on the two documents made available through this action. These documents are: (1) The TRI Technical Review of Acetonitrile and (2) the Acetonitrile External Peer Review charge. Comments submitted in response to this notification should be limited to the scientific findings in these documents. Comments responding to these documents will be made available to the peer reviewers for consideration during the external peer review process.

EPA does not intend to respond to comments unrelated to the two documents identified as open for public comment and will not provide them to peer reviewers for consideration.
