§ 1204.1101 Policy.

(a) It is NASA policy that an effective, standardized, and comprehensive traffic safety program be established and maintained at all NASA Centers, and component facilities, as prescribed in NASA Procedural Requirement (NPR) 8715.C, NASA General Safety Program Requirements. A traffic safety program is essential for the protection and security of NASA laboratories, stations, base, or other facilities, and for the protection of any of its aircraft, missiles, spacecraft, or similar vehicles, or part thereof, and/or of any property or equipment in the custody of any contractor, subcontractor, or the Administration.

(b) To ensure a safe and secure workplace and to provide better for preservation of life and property, all persons on a NASA Center or component facility shall comply with the vehicular and pedestrian traffic requirements of the installation per this Subpart, and the laws of the state in which the installation is located.

(c) Vehicular and pedestrian traffic.

(1) Drivers of all vehicles in or on NASA-owned, controlled or leased property shall be in possession of a current and valid state or territory issued driver's license and vehicle registration, and the vehicle shall display all current and valid tags and licenses required by the jurisdiction in which it is registered.

(2) Drivers who have had their privilege or license to drive suspended or revoked by any state or territory shall not drive any vehicle in or on property during such period of suspension or revocation.

(3) Drivers of all vehicles in or on property shall drive in a careful and safe manner at all times and shall comply with the signals and directions of security force personnel, other authorized individuals, and all posted traffic signs, including speed limits.

(4) The blocking of entrances, driveways, walks, loading platforms, or fire hydrants in or on property is prohibited.

(5) Parking without authority, parking in unauthorized locations or in locations reserved for other persons, parking continuously in excess of 18 hours without permission, or contrary to the direction of posted signs is prohibited. This section may be supplemented by the Center Director or installation officer in charge from time to time by the issuance and posting of specific traffic directives. When so issued and posted, such directives shall

have the same force and effect as if made a part hereof.

(d) Center Directors are hereby delegated authority to determine if their respective Centers require the authority and ability to issue traffic and parking citations, which if implemented, must be in accordance with this Subpart. Should no traffic and parking citation authority and ability be necessary, the Center Director concerned will make a report of same to the Administrator via Associate Administrator for Protective Services. Prior to the effective date of Centers implementing, Centers and Headquarters Operations should transmit their proposed regulations to NASA Office of Protective Services for review and concurrence.

(e) Consistent with arrangements with Federal authorities as each Center and Headquarters may make, violators of such regulations may be issued a District Court Violation Notices for offenses by security officers, including contractor guards. In accordance with this regulation, Centers are authorized to make liaison and such arrangements for appropriate enforcement programs with the cognizant Office(s) of the United States Attorney. Additional information on processing violation notices and liaison necessary is available at: <http://www.cvb.uscourts.gov/>.

(f) A copy of this subpart shall be posted in an appropriate place at each NASA Center or component facility.

§ 1204.1102 Responsibilities.

The Center Directors of NASA installations and the Executive Director for Headquarters Operations over which the United States has exclusive or concurrent legislative jurisdiction, and consistent with the foregoing, are delegated the authority to establish additional vehicular and pedestrian traffic rules and regulations for their installations.

All persons on a NASA Center or component facility are responsible for compliance with locally established vehicular and pedestrian traffic rules and regulations.

§ 1204.1103 Procedures.

The Center Directors and the Executive Director for Headquarters Operations shall issue local policies and procedural requirements, subject to prior NASA Office of Protective Services approval, which will implement this regulation for their respective NASA Centers and component facilities.

§ 1204.1104 Violations.

A person found in violation, on a NASA installation, of any vehicular or pedestrian traffic law, or local installation vehicular or pedestrian traffic rule or regulation made applicable to the installation under the provisions of this subpart, is subject to punishment as provided for by 18 U.S.C. 799 (violation of regulations of NASA).
