Tanya M. Sandros, Senior Attorney, Telephone: (202) 707-8380. Telefax: (202) 252-3423.

SUPPLEMENTARY INFORMATION: In 1995, Congress enacted the Digital

Performance Right in Sound Recordings Act of 1995 ("DPRA"), Public Law 104-39, which created an exclusive right for copyright owners of sound recordings, subject to certain limitations, to perform publicly the sound recordings by means of certain digital audio transmissions. Among the limitations on the performance right was the creation of a new compulsory license for nonexempt, noninteractive, digital subscription transmissions. 17 U.S.C. 114(f).

The scope of this license was expanded in 1998 upon passage of the Digital Millennium Copyright Act of 1998 ("DMCA" or "Act"), Public Law 105-304, in order to allow for the public performance of a sound recording when made in accordance with the terms and rates of the statutory license, 17 U.S.C. 114(a), by a preexisting satellite digital audio radio service or as part of an eligible nonsubscription transmission.

An "eligible nonsubscription transmission" is a noninteractive, digital audio transmission which, as the name implies, does not require a subscription for receiving the transmission. The transmission must also be made as part of a service that provides audio programming consisting in whole or in part of performances of sound recordings the purpose of which is to provide audio or entertainment programming, but not to sell, advertise, or promote particular goods or services. A "preexisting satellite digital audio radio service" is a subscription digital audio radio service that received a satellite digital audio radio service license issued by the Federal Communications Commission on or before July 31, 1998. See 17 U.S.C. 114(j)(6) and (10).

In addition to expanding the current § 114 license, the DMCA also created a new statutory license for the making of an "ephemeral recording" of a sound recording by certain transmitting organizations. 17 U.S.C. 112(e). The new statutory license allows entities that transmit performances of sound recordings to business establishments, pursuant to the limitations set forth in § 114(d)(1)(C)(iv), to make an ephemeral recording of a sound recording for purposes of a later transmission. The new license also provides a means by which a transmitting entity with a statutory license under § 114(f) can make more than the one phonorecord permitted by the exemption specified in § 112(a). 17 U.S.C. 112(e).

Determination of Reasonable Terms and Rates

The statutory scheme for establishing reasonable terms and rates is the same for both licenses. Terms and rates may
