Abstract: Pursuant to the Animal Welfare Act (AWA), its Regulations (AWAR), and the Interagency Research Animal Committee (IRAC), any entity or institution that uses vertebrate animals for research, testing, or training purposes must have an oversight committee to evaluate all aspects of that institution's animal care and use. To be in compliance, the NPS is responsible for managing and maintaining an Institutional Animal Care and Use Committee (IACUC) that has the experience and expertise necessary to assess and approve all research, testing, or training activities involving vertebrate animals on NPS-managed lands and territories. All research, testing, or training projects involving animals taking place on NPS territories must be approved by the NPS IACUC prior to their commencement. IACUC will collect the following information in the current forms from submitters for consideration by the committee:

- IACUC General Submission (GS) Form (NPS Form 10–1301)
- IACUC Amendment Form (NPS Form 10–1301A)
- IACUC Annual Review Form (NPS Form 10–1302)
- IACUC Concurrence Form (NPS Form 10–1303)
- IACUC Field Study Form (NPS Form 10–1304)

As directed by the AWA, NPS IACUC is a self-regulating entity that currently consists of a Chair, NPS Regional members, and two additional members (a veterinarian serving as the “Attending Veterinarian” and another individual serving as the “Unaffiliated Member at-Large”).

N Street NE, Constitution Square Building Three, Suite 1.100, Washington, DC 20002, email: fara.public@usdoj.gov, telephone: (202) 233–0776.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;

—Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

—Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and

—Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Abstract: The LEMAS core survey, conducted every 3 to 4 years since 1987, is based on a nationally representative sample of approximately 3,500 general-purpose LEAs and provides national estimates of law enforcement salaries, expenditures, operations, equipment, information systems and policies and procedures. In addition to these regular surveys, BJS also fields LEMAS supplement surveys to capture detailed information on specific topics pertaining to specific issues in law enforcement. BJS implemented this model of regular LEMAS core surveys and thematic supplement surveys following recommendations from the National Research Council. The first LEMAS supplement survey was fielded in 2017 (OMB Control Number 1121–0354, expired 2/28/2019), with a focus on body-worn camera use among law enforcement agencies. The 2023 LEMAS supplement focuses on two topics, post-academy law enforcement training and agency responses to suicide. Post-academy training is defined as law enforcement training provided to full-time sworn personnel with general arrest powers at any point in their law enforcement career following any recruit or field training. Applicable

topics include the number and types of training instructors used; training budgets; the resources that are accessible to officers through the agency's training program; the number of instruction hours provided for each training topic; and the types of special training programs offered to active full-time sworn personnel. The 2023 LEMAS supplement will also address law enforcement agency responses to suicide. The Federal Bureau of Investigation (FBI) launched the Law Enforcement Suicide Data Collection (LESDC) in January 2022 (OMB Control Number 1110-0082). The 2023 LEMAS supplement survey is intended to be a supporting effort to LESDC by collecting agency-level information on formal wellness programs currently available to full-time sworn personnel and related policies and training.
