

and Electronics Engineers (“IEEE”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing additions or changes to its standards development activities. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, two new standards have been initiated and two existing standards are being revised. More detail regarding these changes can be found at <http://standards.ieee.org/standardswire/sba/05-25-06.html>.

On September 17, 2004, IEEE filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on November 3, 2004 (69 FR 64105).

The last notification was filed with the Department on April 24, 2006. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on May 22, 2006 (71 FR 29354).

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—IMS Global Learning Consortium, Inc.

Notice is hereby given that, on July 6, 2006, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), IMS Global Learning Consortium, Inc. has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Digital Spirit, Berlin, Germany; Horizon Wimba, New York, NY; Respondus, Redmon, WA; and Sun Microsystems, inc., Mountain View, CA have been added as parties to this venture. Also, Brownstone Research Group, Rome, GA has withdrawn as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project.

Membership in this group research project remains open, and IMS Global Learning Consortium, Inc. intends to file additional written notification disclosing all changes in membership.

On April 7, 2000, IMS Global Learning Consortium, Inc. filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on September 13, 2000 (65 FR 55283).

The last notification was filed with the Department on April 10, 2006. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on May 10, 2006 (71 FR 27279).

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Conference of Standards Laboratories

Notice is hereby given that, on July 7, 2006, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), National Conference of Standards Laboratories (“NCSL”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: National Conference of Standards Laboratories, Boulder, CO. The nature and scope of NCSL’s standards development activities are: To develop and maintain standards for the operation and design of calibration laboratories, requirements for the control and use of measuring and test equipment, and requirements or guides for metrological functions associated with calibration laboratories and/or measuring and test equipment. These standards may be new development

projects or may be based upon current ISO/IEC standards or guides, other international standards, recommended practices developed by NCSL or other industry good practices.
