OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Request for Information; Sustainability of Microgravity R&D During and Beyond ISS Transition

AGENCY: Office of Science and Technology Policy (OSTP).

ACTION: Notice of Request for Information.

SUMMARY: The White House Office of Science and Technology Policy (OSTP) requests input to help inform the development of a National Strategy for Microgravity Research and Development (R&D) to ensure sustainability of space-based research during and beyond microgravity platform transition—from the International Space Station (ISS) to future commercial platforms. This particular request seeks information regarding the future vision of a robust research ecosystem in low-earth orbit (LEO) and the role of the U.S. government in enabling that future.

DATES: Interested persons and organizations are invited to submit comments on or before 5:00 p.m. ET, December 2, 2022 to be considered.

ADDRESSES: Due to time constraints, mailed paper submissions will not be accepted, and electronic submissions received after the deadline may not be taken into consideration. You may submit comments by email:

- *Email:* microgravity@ostp.eop.gov, include *Microgravity RFI* in the subject line of the message.

Instructions: Response to this RFI is voluntary. Email submissions should be machine-readable [PDF, Word] and should not be copy-protected. Respondents need not reply to all questions listed. Each individual or institution is requested to submit only one response, in English. Electronic responses must be provided as attachments to an email. It is recommended that attachments with file sizes exceeding 25MB be compressed (*i.e.*, zipped) to ensure message delivery. Please identify your answers by responding to a specific question or topic if possible. Respondents may answer as many or as few questions as they wish. Comments of seven pages or fewer (2,500 words) are requested; longer responses will not be considered. Responses should include the name of the person(s) or organization(s) filing the response.

Information obtained from this RFI may be used by the Government on a non-attribution basis for planning and strategy development. OSTP will not respond to individual submissions. A response to this RFI will not be viewed as a binding commitment to develop or pursue the project or ideas discussed. This RFI is not accepting applications for financial assistance or financial incentives.

Responses containing references, studies, research, and other empirical data that are not widely published should include copies of or electronic links to the referenced materials. Responses containing profanity, vulgarity, threats, or other inappropriate language or content will not be considered.

Comments submitted in response to this notice are subject to the Freedom of Information Act (FOIA). Responses to this RFI may be posted without change online. OSTP therefore requests that no proprietary information, copyrighted information, or personally identifiable information be submitted in response to this RFI. Please note that the United States Government will not pay for response preparation, or for the use of any information contained in a response.

FOR FURTHER INFORMATION CONTACT: Ezinne Uzo-Okoro; tel: 202–456–4444.

SUPPLEMENTARY INFORMATION: Pursuant to 42 U.S.C. 6617, OSTP is soliciting public input through an RFI to obtain feedback from a wide variety of stakeholders, including individuals, industry, academia, research laboratories, nonprofits, and think tanks. OSTP is specifically interested in public input to inform the development and release of a national strategy to ensure sustainability of space-based research in the decades to come. For the purpose of this RFI, microgravity R&D refers to any research or experimental development activities in LEO that leverage the unique environment of space, including altered gravity, thermal extremes, radiation, micrometeoroids, and the vacuum environment. OSTP seeks response to any or all of the following questions:

1. What should be the United States’ vision for the future of microgravity research?

2. What should be the long-term microgravity research goals for U.S. presence in LEO?

3. What are the top critical research, development, or operational needs required to ensure a smooth transition between the International Space Station and future commercial LEO microgravity platforms and realize the ideal future of microgravity research?

4. What would be the most effective role of the U.S. government to ensure sustained LEO microgravity R&D following the retirement of the ISS?

5. Should the U.S. government continue to sponsor a national lab in LEO after ISS transition? If so, what would be the best model(s) for a LEO national lab?

Dated: November 10, 2022.

Rachel Wallace,

Deputy General Counsel.

SMALL BUSINESS ADMINISTRATION

[Disaster Declaration #17644 and #17645; Florida Disaster Number FL–00178]

Presidential Declaration Amendment of a Major Disaster for the State of Florida

AGENCY: U.S. Small Business Administration.

ACTION: Amendment 7.

SUMMARY: This is an amendment of the Presidential declaration of a major disaster for the State of Florida (FEMA–4673–DR), dated 09/29/2022.

Incident: Hurricane Ian.

Incident Period: 09/23/2022 through 11/04/2022.

DATES: Issued on 11/10/2022.

Physical Loan Application Deadline Date: 11/28/2022.

Economic Injury (EIDL) Loan Application Deadline Date: 06/29/2023.

ADDRESSES: Submit completed loan applications to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: A. Escobar, Office of Disaster Assistance, U.S. Small Business Administration, 409 3rd Street SW, Suite 6050, Washington, DC 20416, (202) 205-6734.

SUPPLEMENTARY INFORMATION: The notice of the President's major disaster declaration for the State of Florida, dated 09/29/2022, is hereby amended to establish the incident period for this disaster as beginning 09/23/2022 and continuing through 11/04/2022.

All other information in the original declaration remains unchanged.

(Catalog of Federal Domestic Assistance Number 59008)

Rafaela Monchek,

Acting Associate Administrator for Disaster Assistance.

SMALL BUSINESS ADMINISTRATION

Notice of Updated NAICS Codes for Use in the Women Owned Small Business Federal Contract Program

AGENCY: U.S. Small Business Administration.

ACTION: Notice.

SUMMARY: The U.S. Small Business Administration (SBA) is updating the North American Industry Classification System (NAICS) codes authorized for use in the Women-Owned Small Business Federal Contracting Program (WOSB Program). This update is being made to reflect the U.S. Office of Management and Budget's (OMB) NAICS revision for 2022, identified as NAICS 2022. These changes would impact 85 of the 2017 NAICS codes eligible for use under the WOSB Program.

DATES: The designations of industries contained in this notice apply to all solicitations issued on or after October 1, 2022.

FOR FURTHER INFORMATION CONTACT: Roman Ivey, Program Analyst, Office of Government Contracting and Business Development, roman.ivey@sba.gov, (202) 401-1420.

SUPPLEMENTARY INFORMATION:

I. Background

Under section 8(m) of the Small Business Act, 15 U.S.C. 637(m), SBA is responsible for implementing and administering the WOSB Program. The purpose of the WOSB Program is to ensure that women-owned small businesses (WOSBs) have an equal opportunity to participate in federal contracting and to help attain the Federal Government's goal of awarding five percent of its prime contract dollars to WOSBs. The WOSB Program authorizes Federal contracting officers to restrict competition for a contract to WOSBs if (1) There is a reasonable expectation that at least two WOSBs will submit offers that meet the requirements of the acquisition at a fair and reasonable price, and (2) The acquisition is for a good or service assigned a North American Industry Classification System (NAICS) code in which SBA has determined that WOSBs are "substantially underrepresented." The WOSB Program also authorizes contracting officers to award a sole-source contract assigned a WOSB Program-eligible NAICS code, provided that only one WOSB can be identified that can perform the contract at a fair and reasonable price.

Economically disadvantaged women-owned small businesses (EDWOSBs) can likewise receive set-asides and sole-source contracts similar to those described above for WOSBs. Federal agencies may reserve contract opportunities for EDWOSB set-asides and sole-source awards in industries where SBA has determined that WOSBs are "underrepresented."

The Small Business Reauthorization Act of 2000, Public Law 106-554, 1(a)(9) [title VIII section 811], required the SBA Administrator to conduct an initial study to identify those industries in which small business concerns owned and controlled by women are underrepresented in Federal contracting, in order to designate those industries as eligible for set-asides and sole-source contracts under the WOSB Program. 15 U.S.C. 637(m)(4). Subsequently, Congress amended the Small Business Act to require SBA to conduct a new study every five years and to submit a report to Congress reflecting the results of each new study. Public Law 113-291, section 825(c) (December 19, 2014). SBA recently conducted a new study and published the results—including the new list of 2017 NAICS codes eligible for use under the WOSB Program—in a **Federal Register** notice. 87 FR 15468 (March 18, 2022).

On December 21, 2021, the U.S. Office of Management and Budget (OMB) published its most recent update to the NAICS industry groups, NAICS 2022, "Notice of NAICS 2022 Final Decisions; Update of Statistical Policy Directive No. 8, North American Industry Classification System: Classification of Establishments; and Elimination of Statistical Policy Directive No. 9, Standard Industrial Classification of Enterprises." (Notice of NAICS 2022) in the **Federal Register**. 86 FR 72277. The Notice of NAICS 2022 stated that Federal statistical establishment data published for years beginning on or after January 1, 2022, should be published using NAICS 2022. Accordingly, SBA published a final rule adopting of the new NAICS 2022 for its size standards. 87 FR 59240 (September 29, 2022).

In order to align the WOSB Program with the Notice of NAICS 2022 and SBA's adoption of NAICS 2022 for its size standards, SBA is issuing this notice to amend the NAICS codes eligible for use under the WOSB Program.

II. Changes in Eligible NAICS Codes

NAICS 2022 created 111 new industries by reclassifying, combining, or splitting 156 NAICS 2017 industries or their parts. In addition, NAICS 2022 renamed some NAICS industry titles. After review and comparison of the NAICS 2017 and NAICS 2022 industry groups, SBA has determined that the changes affect 85 of the 2017 NAICS codes designated as eligible for the WOSB Program in the March 18, 2022, **Federal Register** notice. The 2022 NAICS changes impact 72 NAICS codes designated as eligible for WOSB set-asides and sole-source awards and 13 NAICS codes designated as eligible for EDWOSB set-asides and sole-source awards.

Following is a breakdown of the number and type of impact the new 2022 NAICS codes have on industries eligible for the WOSB Program:

- 65 2017 NAICS codes are combined to form 28 new 2022 NAICS codes.
- One 2017 NAICS code are split into two 2022 NAICS codes.
- Nine 2017 NAICS codes are given a new 2022 NAICS code.
- Nine 2017 NAICS codes are given a new 2022 NAICS code title (the NAICS code itself will not change).
- One 2017 NAICS code is given a new 2022 NAICS code and a new 2022 NAICS code title.

As a result, the total number of NAICS codes eligible under the WOSB program decreases from 759 NAICS codes (2017) to 733 NAICS codes (2022).
