

environment. This rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction. This rule involves the establishment of a safety zone. Based on our preliminary determination, there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, we believe that this rule should be categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. Because this event establishes a safety zone, paragraph (34)(g) of the Instruction applies. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.
