SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public

and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The SQSP is an approach to the unemployment insurance performance management and planning process that allows for an exchange of information between the Federal and state partners to enhance the ability of the UI program to reflect the joint commitment to performance excellence and client-centered services. As part of UI Performs, a comprehensive performance management system implemented in 1995 for the UI program, SQSP is the principal vehicle that state UI agencies use to plan, record, and manage program improvement efforts as they strive for excellence in service. SQSP also serves as the state plan for the UI program and serves as the grant document through which states receive Federal UI administrative funding. SQSP links program performance with the budget and planning process.

The Department’s information collection authority for SQSP is under Office of Management and Budget (OMB) number 1205–0132. ETA proposes to revise this information collection to improve the clarity of the documentation and instructions and update the estimated burden based on more recent operating activity. Currently, ETA is soliciting comments concerning the proposed modification to the ET Handbook No. 336, 18th Edition; Unemployment Insurance (UI) State Quality Service Plan (SQSP). ETA is providing specific guidance on the submittal of the SQSP.

The SQSP, with its State Plan Narrative, Corrective Action Plans (CAPs), and Integrity Action Plan (IAP), is the state’s formal plan and schedule for improving performance. States will continue to use the State Plan Narrative to provide a general summary of the UI program in the state. The Department expects each state to address its planned actions to correct deficiencies for Secretary Standards, Core Measures, and UI programs are expected in CAPs. The Department requires each state to submit one CAP for each deficiency. Based on FY 2022 data, states submitted a total of 874 CAPs. This is an increase of 397 CAPs compared to FY 2020 data.

The Secretary of Labor is authorized to provide funds to administer the UI
