Atlantic Highly Migratory Species Outreach Workshop

In recent years, HMS fisheries stakeholders, including fishers, dealers, and the general public, have requested that NMFS prioritize HMS fisheries management education and outreach in the U.S. Caribbean, specifically in Puerto Rico. To be responsive to stakeholder needs in Puerto Rico, NMFS is carrying out free HMS Outreach Workshops across five locations in Puerto Rico. The workshops are designed to educate fishers, dealers, and the general public on HMS regulations, distribute outreach materials, and assist fishers and dealers in applying for HMS permits. The increased engagement, outreach, and education in the U.S. Caribbean as a result of the HMS Outreach Workshops will help meet NMFS's goal of promoting sustainable fisheries and address key shark management outreach requests by our stakeholders in that region. These workshops are also consistent with NMFS's effort to encourage the involvement of disadvantaged or underserved communities consistent with Executive Orders 14008, 12898, and 13895.
