

Respondents/affected entities: All contractors who have completed an EPA cost-reimbursement type contract.

Respondent's obligation to respond: Mandatory (FAR 52.216-7).

Estimated number of respondents: 5 (total).

Frequency of response: Once, at the end of the contract.

Total estimated burden: 32 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,602 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the hours in the total estimated respondent burden compared with the ICR currently approved by OMB.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Inorganic Arsenic Emissions From Primary Copper Smelters (Reinstatement)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Inorganic Arsenic Emissions from Primary Copper Smelters (EPA ICR No. 1089.05), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a request for approval of a reinstatement of a previously approved ICR. Public comments were previously requested, via the **Federal Register**, on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 30, 2018.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2017-0201, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Inorganic Arsenic Emissions from Primary Copper Smelters (40 CFR part 61, subpart O) apply to existing facilities and new facilities where the total arsenic charging rate for the copper converter department averaged over a 1-year period is greater than 75 kg/hr (165 lb/hr), as determined under 40 CFR 61.174(f). New facilities include those that commenced construction or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during

which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 61, subpart O.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of primary copper smelter facilities.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 3 (total).

Frequency of response: Initially, quarterly, and annually.

Total estimated burden: 2,380 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$263,000 (per year), which includes \$1,500 in annualized capital/setup and/or operation & maintenance costs.

Changes in the Estimates: This is a reinstatement of a previously approved collection. There is an adjustment decrease in the total estimated burden and cost previously identified in the OMB Inventory of Approved Burdens. This decrease is due to a decrease in the number of sources.

Courtney Kerwin,

Director, Regulatory Support Division.
