

respondents to provide annual amendments under Rule 6a–4(b)(3) would be 30 hours (15 hours/respondent/year × 2 respondents) and \$200 of miscellaneous clerical expenses. The Commission estimates that the total annual burden for all respondents to provide three-year amendments⁶ under Rule 6a–4(b)(4) would be 14 hours (20 hours/respondent × 0.67 respondents per year) and \$88 in miscellaneous clerical expenses. The Commission estimates that the total annual burden for the filing of the supplemental information⁷ and the monthly reports required under Rule 6a–4(c) would be 12 hours (6 hours/respondent per year × 2 respondents⁸) and \$120 of miscellaneous clerical expenses. Thus, the Commission estimates the total annual burden for complying with Rule 6a–4 is 86 hours and \$608 in miscellaneous clerical expenses.

Compliance with Rule 6a–4 is mandatory. Information received in response to Rule 6a–4 shall not be kept confidential; the information collected is public information.

Abstract of Proposed Collection

This information collection is used for two main purposes: (1) the collection and submission of information required for DDTC approval of a reexport or retransfer; and (2) the collection and retention of certain information for authorizations and other approvals, including for reexports and retransfers under an Open General License (OGL) program. Under § 123.9(a) of the ITAR, unless an exemption applies, DDTC’s written approval must be obtained before reselling, transferring, reexporting, retransferring, transshipping, or disposing of a defense article to any end-user, end-use, or destination other than as stated on the export license or in the Electronic Export Information filing in cases where an exemption was claimed. Such approval is normally granted through case-by-case review of requests to authorize specific transfers. In addition, ITAR § 120.22(b) allows DDTC to provide export authorization for DDTC’s own initiatives, including pilot programs and other specifically anticipated circumstances for which DDTC considers special authorizations appropriate. DDTC has launched a pilot program pursuant to its authorities in ITAR § 120.22(b) in order to assess the concept of an OGL mechanism by which it may authorize certain transfers of defense articles to predetermined

⁷ 17 CFR 240.6a–4(c)

⁸ See *supra* footnote 7.

parties. OGLs eliminate the need for the Department to individually review and approve certain lower-risk transactions involving certain recipients. DDTC believes the OGL program will provide unprecedented flexibility for the U.S. defense industry and U.S. allies to operate consistent with the ITAR and will enhance their ability to maintain, repair, and store defense articles.

Under ITAR § 123.1(c), DDTC may require pertinent documentation regarding the proposed transaction and proper completion of the application form, including information about the quantity and value of the defense article proposed for export and information on the proposed end-user, end-use, and ultimate destination. Under ITAR § 123.9(c), persons who seek approval from DDTC to reexport or retransfer defense articles are required to submit a description, quantity, and value of the defense article and a description and identification of the new end-user, end-use, and destination. Under ITAR § 120.15(e) any person engaging in any reexport or retransfer of a defense article pursuant to an exemption must maintain records of each such transfer including the following information: A description of the defense article, including technical data, or defense service; the name and address of the end-user and other available contact information (e.g., telephone number and email address); the name of the natural person responsible for the transaction; the stated end-use of the defense article or defense service; the date of the transaction; and the method of transmission.

DDTC seeks to ensure that persons who rely on any current or future OGLs to conduct reexports and retransfers abroad retain the same records as would be required if their transactions were authorized by either a specific license or an exemption. Accordingly, DDTC has restated the record-keeping requirements articulated in ITAR § 120.15(e) in the OGLs themselves.

Methodology

Respondents will submit information as attachments to relevant license applications or requests for other approval. Applicants are referred to ITAR § 123.9 for guidance on what information to submit regarding the request to change end-user, end-use and/or destination of hardware. This information may be submitted electronically via a DS-6004, Reexport/Retransfer Application, through DDTC's case management system, the Defense Export Control and Compliance System (DECCS).

Separately, as described in ITAR § 120.15(e) and under the OGL pilot program and as described in each OGL, respondents will be required to retain certain information in their own records for a period of five years from the date of the reexport or retransfer.

Authority: 44 U.S.C. 3507.

SURFACE TRANSPORTATION BOARD

[Docket No. FD 36028 (Sub-No. 1)]

Kanawha River Railroad, LLC—Lease Renewal and Operation Exemption With Interchange Commitment— Norfolk Southern Railway Company

Kanawha River Railroad, L.L.C. (KRR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to amend its lease with Norfolk Southern Railway Company (NSR) of, and continue to operate, nine rail line segments totaling 309.45 miles in West Virginia and Ohio.¹ These line segments extend between (1) milepost V 381.8 at Maben, W. Va., and milepost V 435.0 at DB (Deepwater Bridge), W. Va.; (2) milepost RR 7.0 at Refugee, Ohio, and milepost RR 116.5 at Hobson Yard, Ohio; (3) milepost WV 125.6 at Conco, Ohio, and milepost WV 253.4 at Cornelia, W. Va.; (4) milepost 0.0 VC at Vaco Junction, W. Va., and milepost 0.84 VC at Deepwater, W. Va.; (5) Hitop RT at milepost TP 0.0 at Charleston, W. Va., and the end of the track at milepost TP 1.0; (6) Jones IT at milepost JT 0.0 at Jones, W. Va., and the end of the track at milepost JT 1.3; (7) milepost VG 0.0 at Virwest, W. Va., and milepost VG 12.5 at Bolt, W. Va.; (8) milepost MY 0.0 at Milam, W. Va., and the end of the track at milepost MY 1.01; and (9) milepost PE 0.0 at Putt, W. Va., and

¹ According to KRR, it mistakenly understated the total mileage by 0.6 miles and misidentified the mileposts on segments (1) and (7) in its verified notice leading to the exemption in *Kanawha River Railroad—Lease Exemption Containing Interchange Commitment—Norfolk Southern Railway*, FD 36028 (STB served July 15, 2016), *corrected* FD 36028 (STB served Aug. 1, 2016), *clarified* FD 36028 (STB served Aug. 5, 2016). KRR now identifies the total mileage as 309.45 miles, not 308.85 miles; the correct Maben milepost in segment (1) to be V 381.8, not V 382; and the correct Bolt milepost in segment (7) to be VG 12.5, not VG 12.1. KRR verifies that no shipper is affected by these corrections because it has operated consistent with the correct mileposts as identified in the lease agreement. KRR will receive authority to operate on the previously unidentified portions of line if the exemption in this notice becomes effective. *See Dall., Garland & Ne. R.R.—Lease & Operation Exemption Including Interchange Commitment—Union Pac. R.R.*, FD 36545, slip op. at 3 (STB served Dec. 2, 2021).
