

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: (23–127)]

National Environmental Policy Act; Agency Master Plan

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of availability of the Agency Master Plan Final Programmatic Environmental Assessment (PEA) and the resulting Finding of No Significant Impact (FONSI).

SUMMARY: NASA announces its decision to implement the Agency Master Plan. NASA's decision is supported by the detailed analysis found in the Final PEA, as summarized in the agency's FONSI, the availability of which is located under **ADDRESSES**.

ADDRESSES: The complete text of the PEA and the FONSI for the Agency Master Plan are at <https://www.nasa.gov/emd/nepa-public-reviews/>.

FOR FURTHER INFORMATION CONTACT: Ms. Tina Norwood, NASA NEPA Manager, Environmental Management Division, NASA Headquarters Office of Strategic Infrastructure 300 E. Street SW, Washington DC 20546, 202–358–7324 or Email: tinanorwood@nasa.gov.

SUPPLEMENTARY INFORMATION: As early as 2011, NASA began integrating and optimizing operations across centers and mission support facilities (*i.e.*, technical capability facilities) to reduce costs and revitalize the capabilities required to enable NASA's portfolio of missions (NASA 2011, 26). In 2015, the Executive Office of the President distributed Management Procedures Memorandum No. 2015–01, tasking federal agencies to “move aggressively to dispose of surplus properties held by the federal government, make more efficient use of the government's real property assets, and reduce the total square footage of their domestic office and warehouse inventory relative to an established baseline.” This directive set agency planning goals that were disseminated to centers.

To better achieve its infrastructure reduction targets, NASA proposes to implement a centralized and standardized Agency Master Plan administrative process. This Proposed Action will help ensure program management and planning efforts are aligned across all mission areas and geographically separate centers and facilities, as well as implement a consistent and cost-effective set of processes, systems, and tools for enterprise-wide master planning. The

Proposed Action is supported by NASA's 2018 Strategic Plan, which recommended NASA develop an Agency Master Plan that identifies agency facility priorities over a 20-year timeframe (NASA 2018a). The implementation of an Agency Master Plan provides a framework upon which each NASA center is to develop its own Center Master Plan (CMP) tied to Agency-wide requirements, thereby allowing the agency to meet its overall infrastructure management targets and more efficiently (*i.e.*, cost-effectively) achieve its mission as well as sustainment and infrastructure reduction goals.

Joel Carney,

Assistant Administrator, Office of Strategic Infrastructure.

BILLING CODE 7510–13–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–003, 50–247, and 50–286; NRC–2023–0180]

Holtec Decommissioning International, LLC, Holtec Indian Point 2, LLC, and Holtec Indian Point 3, LLC; Indian Point Energy Center; Exemption

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued an exemption in response to a request from Holtec Decommissioning International, LLC that would permit it, Holtec Indian Point 2, LLC, and Holtec Indian Point 3, LLC, to reduce the required level of primary offsite liability insurance from \$450 million to \$100 million and to eliminate the requirement to carry secondary financial protection for the Indian Point Nuclear Generating Unit Nos. 1, 2, and 3, collectively referred to as the Indian Point Energy Center (IPEC).

DATES: The exemption was issued on November 16, 2023.

ADDRESSES: Please refer to Docket ID NRC–2023–0180 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2023–0180. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann;

telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Karl Sturzebecher, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–8534, email: Karl.Sturzebecher@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the exemption is attached.

Dated: December 26, 2023.

For the Nuclear Regulatory Commission.

Marlayna V. Doell,

Project Manager, Reactor Decommissioning Branch, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

Attachment—Exemption

Nuclear Regulatory Commission

Docket Nos. 50–003, 50–247, and 50–286

Holtec Decommissioning International, LLC, Holtec Indian Point 2, LLC, and Holtec Indian Point 3, LLC Indian Point Nuclear Generating Unit Nos. 1, 2, and 3; Exemption

I. Background

Indian Point Nuclear Generating Unit No. 1 (IP1) permanently ceased generation on October 31, 1974, and all fuel was removed from the IP1 reactor vessel by January 1976. In 1996, the U.S. Nuclear Regulatory Commission (NRC, the Commission) issued an order approving the safe-storage condition of
