The electronic docket for this rulemaking action can be accessed at www.regulations.gov with reference to docket number "EPA-R04-OAR-2005-AL-0002." Since identification of this error, the Region 4 office has refined its protocol to clearly identify necessary steps that must be taken to ensure the completeness and availability of the electronic docket to the public. EPA did generate and maintains a hard copy paper docket for this action in addition to the electronic docket. This hard copy paper docket contained all the pertinent documents for EPA's final rulemaking and continues to be available for inspection by the public at the EPA Region 4 office. In EPA's final rulemaking published on October 15, 2008, EPA informed the public that the docket materials were available both electronically and in hard copy. Additionally, EPA provided contact information in that rulemaking for the public to request access to material. EPA did not receive any requests for this material through the October 15, 2008, rulemaking action.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical amendment.

SUMMARY: EPA issued a final rule in the **Federal Register** of September 10, 2008, revoking, revising, and establishing certain tolerances. This document is being issued to correct the amendatory language for § 180.169.

DATES: This final rule is effective March 11, 2009.

ADDRESSES: EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2007-1170. All documents in the

docket are listed in the docket index available in <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

The Agency included in the final rule a list of those who may be potentially affected by this action. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to accessing electronically available documents at <http://www.regulations.gov>, you may access this **Federal Register** document electronically through the EPA Internet under the **Federal Register** listings at <http://www.epa.gov/fedrgstr>.

II. What Does this Amendment Do?

EPA issued a final rule in the **Federal Register** of September 10, 2008 (73 FR 52607) (FRL-8379-3), revoking, revising, and establishing certain tolerances for residues of benfluralin, carbaryl, diazinon, dicrotophos, fluometruon, formetanate hydrochloride, glyphosate, metolachlor, napropamide, norflurazon, pyrazon, and tau-fluvalinate. On page 52611, third column, the amendatory language for § 180.169 inadvertently omitted the

phrasing to delete paragraphs (a)(3) and (a)(4). This document corrects that error.

III. Why is this Amendment Issued as a Final Rule?

Section 553 of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), provides that, when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, the Agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making today's technical amendment final without prior proposal and opportunity for comment, because the use of notice and comment procedures is unnecessary to effectuate this amendment. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B).

IV. Do Any of the Statutory and Executive Order Reviews Apply to this Action?

EPA included the required statutory discussion in the September 10, 2008 final rule (72 FR 52607).

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the Agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).
