### Drug Enforcement Administration

[DEA # 207F]

#### Controlled Substances: Final Revised Aggregate Production Quotas for 2001

**AGENCY:** Drug Enforcement Administration (DEA), Justice.

**ACTION:** Notice of final aggregate production quotas for 2001.

**SUMMARY:** This notice establishes final 2001 aggregate production quotas for controlled substances in Schedules I and II of the Controlled Substances Act (CSA). The DEA has taken into consideration comments received in response to a notice of the proposed revised aggregate production quotas for 2001 published August 6, 2001 (66 FR 41049). No comments were received in response to an interim notice establishing revised 2001 aggregate production quotas published August 14, 2001 (66 FR 42680). The interim notice is adopted as published.

**EFFECTIVE DATE:** October 15, 2001.

**FOR FURTHER INFORMATION CONTACT:** Frank L. Sapienza, Chief, Drug and Chemical Evaluation Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307-7183.

**SUPPLEMENTARY INFORMATION:** Section 306 of the CSA (21 U.S.C. 826) requires that the Attorney General establish

aggregate production quotas for each basic class of controlled substance listed in Schedules I and II. This responsibility has been delegated to the Administrator of the DEA by § 0.100 of Title 28 of the Code of Federal Regulations.

The 2001 aggregate production quotas represent those quantities of controlled substances in Schedules I and II that may be produced in the United States in 2001 to provide adequate supplies of each substance for: The estimated medical, scientific, research and industrial needs of the United States; lawful export requirements; and the establishment and maintenance of reserve stocks (21 U.S.C. 826(a) and 21 CFR 1303.11). These quotas do not include imports of controlled substances.

On August 6, 2001, a notice of the proposed revised 2001 aggregate production quotas for certain controlled substances in Schedules I and II was published in the **Federal Register** (66 FR 41049). All interested persons were invited to comment on or object to these proposed aggregate production quotas on or before September 5, 2001.

Six companies and one individual commented on a total of thirteen Schedules I and II controlled substances within the published comment period. The companies commented that the proposed aggregate production quotas for 4-methoxyamphetamine, amphetamine, hydrocodone (for sale), marihuana, methamphetamine (for sale), methylphenidate, morphine (for sale), noroxymorphone (for conversion), oxycodone (for sale), pentobarbital, phenylacetone and thebaine were insufficient to provide for the estimated medical, scientific, research and industrial needs of the United States, for export requirements and for the establishment and maintenance of reserve stocks. The individual's comment questioned the increase in the aggregate production quota for secobarbital and raised other issues, including how to obtain additional information concerning this quota.

DEA has taken into consideration the above comments along with the relevant 2000 year-end inventories, initial 2001 manufacturing quotas, 2001 export requirements, actual and projected 2001 sales and use, and research and product development requirements. Based on this information, the DEA has adjusted the final 2001 aggregate production quotas for marihuana, methylphenidate, morphine (for sale), pentobarbital and phenylacetone to meet the legitimate needs of the United States.

Regarding 4-methoxyamphetamine, amphetamine, hydrocodone (for sale),
