

under Section 601 of the Water Resources Development Act (WRDA) of 2000 as part of the Central and Southern Florida (C&SF) Comprehensive Everglades Restoration Plan (CERP). The objective of this project is to restore the hydrology of Southern Golden Gate Estates (SGGE) to that which existed prior to the 1960's real estate subdivision. Development of SGGE created approximately 20,000 separate parcels of land, 70 miles of drainage canals, and 290 miles of roads. Elimination of the home sites, plugging of the canals, reduction in the number of miles of roadway, and the reestablishment of a more natural hydrology are expected to restore native plant communities and improve habitat for fish and wildlife resources.

FOR FURTHER INFORMATION CONTACT: John Kremer, U.S. Army Corps of Engineers, Planning Division, Environmental Branch, PO Box 4970, Jacksonville, FL, 32232-0019, by e-mail john.g.kremer@usace.army.mil, or by telephone at 904-232-3551.

SUPPLEMENTARY INFORMATION:

a. *Authorization:* The Southern Golden Gate Estates Hydrologic Restoration PMP and PIR planning process is authorized under Section 601 of the Water Resources Development Act (WRDA) of 2000 as part of the Central and Southern Florida (C&SF) Comprehensive Everglades Restoration Plan (CERP).

b. *Study Area:* Southern Golden Gate Estates encompasses an area of approximately 94 square miles (60,160 acres) in southwestern Collier County, Florida. It is located between Interstate 75 and U.S. Highway 41. SGGE is located southwest of the Florida Panther National Wildlife Refuge, north of the Ten Thousand Islands Aquatic Preserve and the Ten Thousand Islands National Wildlife Refuge, east of the Belle Meade State Conservation and Recreation Lands Project Area, and west of the Fakahatchee Strand State Preserve. In combination with the Belle Meade tract SGGE will be managed as the Picayune Strand State Forest. Northern Golden Gate Estates (NGGE) lies across Interstate 75 to the north of SGGE.

c. *Project Scope:* Implementation of this project would restore a more natural hydrology in Southern Golden Gate Estates by reintroducing sheet flow, reestablishing historic flow ways, reducing runoff through increased evaporation and groundwater recharge, and by replacing point source discharges from the Faka Union Canal with distributed flow to tidal coastal marshes along U.S. highway 41. The proposed project would plug the canals,

reduce the number of miles of roadway, and reestablish a more natural hydrology. Accomplishment of these objectives is expected to restore historic native plant communities and improve habitat for fish and wildlife resources.

d. *Preliminary Alternatives:* The DPIR/EIS will evaluate alternative structural and non-structural measures to modify the existing water management system of SGGE to accomplish the following objectives: Establish more uniform freshwater flows to estuaries, restore historic hydro patterns, restore wetland and upland communities, reduce habitat for invasive non-native species, increase aquifer recharge, restore ecological connectivity among public lands, restore habitat for listed species, increase fish and wildlife resources, restore the natural fire regime, remediate or remove chemical contaminants, maintain existing level of flood protection, and maintain appropriate access for managing agencies and public users of the state forest.

e. *Issues:* The integrated DPIR/EIS will address the following issues: restoration of wetlands and upland ecosystems; water flows; future environmental and urban water demand and supply; socio-economic resources; aquifer recharge; water quality; impacts to the estuaries; flood protection; aesthetics and recreation; fish and wildlife resources, state and federal protected species; cultural resources; and other impacts identified through further scoping, public involvement, and interagency coordination.

f. *Scoping:* The SGGE project has had a long history of public and interagency involvement dating back to the 1978 Congressional authorization for the Corps to prepare a Golden Gate Estates (GGE) Feasibility Study. The Corps published the GGE Feasibility Study in 1986. In February of 1996 the Big Cypress Basin/South Florida Water Management District submitted the "Hydrologic Restoration of Southern Golden Gate Estates—Conceptual Plan" to the Governor of Florida. In January 1997 the Interagency Technical Advisory Committee (ITAC) convened with representatives from the Corps, U.S. Fish and Wildlife Service, U.S. Geological Survey, FDEP, Florida Game and Fresh Water Fish Commission and others, to provide input and assistance for the Cooperative Watershed Planning Assistance Study led by USDA-NRCS and SFWMD. NRCS published this study in September 2001. In September 2000, utilizing the expertise of the ITAC, the Corps and SFWMD jointly initiated the development of a Project

Management Plan (PMP) for the SGGE restoration project. The PMP was presented to the Big Cypress Basin Board of Directors at a public meeting in February of 2001. During the past 24 years local and state agencies have held numerous meetings to gather input on issues and opportunities involving the restoration of SGGE.

g. *DPIR/EIS Preparation:* The integrated DPIR/EIS is scheduled for publication in June 2005.

Dated: May 8, 2002.

To be eligible for funding, a project must propose mentoring programs and activities to serve children with the greatest need living in rural areas, high-crime areas, troubled home environments, or who attend schools with violence problems.

For FY 2002 this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

Competitive Preference Priority: Within the statutory priority for this competition for FY 2002, we will award five additional points to novice applicants. These points are in addition to any points the application earns under the selection criteria for this program.

Note: The total number of points an application may earn is 105.

Requirements

Projects funded under this priority must—

- (A) Link children with mentors who—
 - (i) Have received training and support in mentoring;
 - (ii) Have been screened using appropriate reference checks, child and domestic abuse record checks, and criminal background checks; and

Participation by Private School Children and Teachers

LEAs that receive a Mentoring Programs grant are required to provide for the equitable participation of eligible private school students and their teachers or other educational personnel. In order to ensure that grant program activities address the needs of private school children, timely and meaningful consultation with appropriate private school officials must occur during the design and development of the program. Administrative direction and control over grant funds must remain with the grantee.

Maintenance of Effort

An LEA may receive a grant under Mentoring Programs only if the State educational agency finds that the combined fiscal effort per student or the aggregate expenditures of the agency and the State with respect to the provision of free public education by the agency for the preceding fiscal year was not less than 90 percent of the combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

Prohibited Uses of Funds

Grant funds may not be used to (1) directly compensate mentors; (2) obtain educational or other materials or equipment that would otherwise be used in the ordinary course of the grantee's operations; or (3) support litigation of any kind.

To the extent practicable, the Assistant Secretary will select not less than one grant recipient from each State for which there is an eligible entity that submits an application of sufficient quality. Contingent upon the availability of funds, the Assistant Secretary may make additional awards in FY 2003 from the rank-ordered list of unfunded applications from this competition.

Pilot Project for Electronic Submission of Applications

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

In FY 2002, the U.S. Department of Education is continuing to expand its pilot project of electronic submission of applications to include additional formula grant programs and additional discretionary grant competitions. The Mentoring Program is one of the programs included in the pilot project. If you are an applicant under this grant competition, you may submit your application to us in either electronic or paper format.

The pilot project involves the use of the Electronic Grant Application System (e-APPLICATION, formerly e-GAPS) portion of the Grant Administration and Payment System (GAPS). We request your participation in this pilot project. We will continue to evaluate its success and solicit suggestions for improvement.

If you participate in this e-APPLICATION pilot, please note the following:

- Your participation is voluntary.
- You will not receive any additional point value or penalty because you submit a grant application in electronic or paper format.
- You can submit all documents electronically, including the Application for Federal Assistance (ED 424), Budget Information—Non-Construction Programs, (ED 524), and all necessary assurances and certifications.

- Within three working days of submitting your electronic application, fax a signed copy of the Application for Federal Assistance (ED 424) to the Application Control Center after following these steps:

1. Print ED 424 from the e-APPLICATION system.
2. Make sure that the institution's Authorized Representative signs this form.
3. Before faxing this form, submit your electronic application via the e-APPLICATION system. You will receive an automatic acknowledgement, which will include a PR/Award number (an identifying number unique to your application).

4. Place the PR/Award number in the upper right corner of the ED 424.

5. Fax ED 424 to the Application Control Center at (202) 260-1349.

- We may request that you give us original signatures on all other forms at a later date.

You may access the electronic grant application for Mentoring Programs at <http://e-grants.ed.gov>.

We have included additional information on the e-APPLICATION pilot project (see Parity Guidelines between Paper and Electronic Applications) in the application package.

If you want to apply for a grant and be considered for funding, you must meet the deadline requirements listed above.

Program Authority: 20 U.S.C. 7140.
